SHEET NO.	TOTAL SHEETS
7	50

DETAIL A

GENERAL NOTES

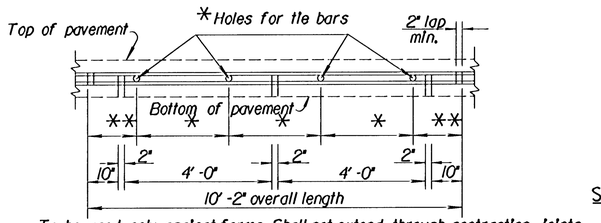

All work shall be done in conformity with the Standard Specifications applicable to the project.

The cost of all bars, mesh and joint material shown on this sheet is to be included in the bid price for Concrete Pavement.

At each planned transverse joint location, a 4 to 6 inch wide strip of the pavement surface shall be protected from the texturing operation to provide a transverse textureless surface centered over the joint sawcut.

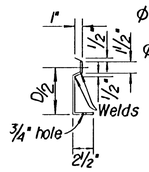

All joints on this project shall be sawed and filled with sealant in accordance with Standard Specifications.

All materials and work required for this construction shall be subsidiary to the concrete approach slab or sidewalk construction.

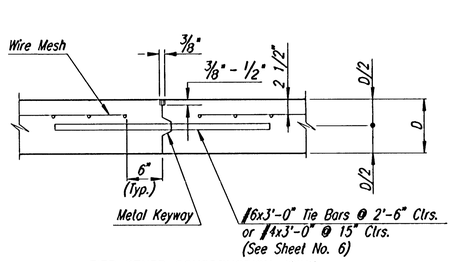

To be used only against forms. Shall not extend through contraction joints.
* Tie bar size and spacing shall be as shown in table.
** Space variable depending on tie bar spacing. Shall not exceed one half tie bar spacing plus one inch.

METAL STRIP FOR
LONGITUDINAL CONSTRUCTION JOINT

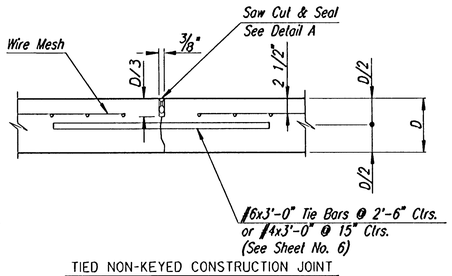

Snap-in leg or other approved designs may be used in lieu of welded leg.
