- 11. All salvageable drainage pipes, manhole rings and covers, and inlet grates shall be carefully removed and stockpiled at locations within the right-of-way as directed by the Engineer for removal by City personnel.*
- 12. Contractor shall arrange for the replacement of section monuments as indicated on the plans according to the monument box detail on sheet 3.*
- 13. Mailboxes within the limits of the project which are in direct conflict with proposed new construction shall be removed by the contractor with the Engineer's approval and placed in the owner's yard. This work shall be completed according to the special provision for mailbox adjustments. All mailboxes within the project limits shall have a non-hazardous support, and are to be re-installed by the Contractor.*
- 14. Connection of proposed storm sewer to existing storm sewer and existing structure shall be Subsidiary to new pipe being connected to. Also pipe plugs to be Subsidiary to the project.*
- 15. Driveways replaced with this project shall be a minimum of 3.65m in width.*
- 16. Neither the City of Wichita nor the contractor shall be responsible for moving and resetting fences that are on the public right of way. The property owner shall be notified prior to construction to move the fence. If the fence is not removed by the time of construction, the contractor shall remove the fence and it will become the property of the contractor.*
- 17. Contractor to contact Wichita Metro Transit Authority (WMTA) prior to construction to arrange removal and replacement of bus stop benches.*
- 18. Contractor shall maintain two-way traffic during the project for the entire length of the project. All Traffic control shall be Subsidiary to the bid item 'Traffic Control'.*
- 19. The Contractor shall adjust Water Valve Boxes and Fire Hydrants as directed by the Engineer at the price bid for said adjustments. The Water Department shall field locate water valves one time during construction when requested by the Contractor. It shall be the Contractor's responsibility to preserve such field locations during the construction process. Water valves, water valve boxes or fire hydrants damaged during construction shall be repaired by the Contractor at his own expense.*
- 20. The Contractor shall adjust Monitor Wells to match new construction. Coordination of well adjustments shall be planned with the Kansas Department of Health and Environment. Contact Kyle Parker, 337-6045 prior to construction.*
