CONCRETE PAVER EDGING (Subsidiary to 4" Sidewalk Concrete Pavement)

GENERAL NOTES

All work shall be done in conformity with the Standard Specifications applicable to the project.

The cost of all bars, mesh and joint material shown on this sheet is to be included in the bid price for Concrete Pavement.

At each planned transverse joint location, a 4 to 6 inch wide strip of the pavement surface shall be protected from the texturing operation to provide a transverse textureless surface centered over the joint sawcut.

All joints on this project shall be sawed and filled with sealant in accordance with Standard Specifications.

All materials and work required for this construction shall be Subsidiary to the concrete approach slab.
