NOTES:
Existing underground (U/G), overhead (O.H.) utilities and drainage structures have been plotted from available information and therefore, their locations must be considered approximate only. It is the responsibility of the individual contractors to exactly locate each utility before actual construction.

Poles to be galvanized prior to black powder coating.

Communication Cable shall be pulled back to existing Westar Energy Pole. Contractor to install aerial splice and re–route communication cable through new service box to new controller.

All existing traffic signal equipment to be removed unless otherwise noted.

Service boxes within sidewalk shall use a 1981 Deeter Rim and Cover.

Meter Address:
362 N. Emporia
