

See Corral Detail Sheet for additional reinforcing in slab.

HAUNCH ORDINATES

Figure 1: Detail of the deck slab and sidewalk slab construction. The diagram shows a cross-section of a concrete deck slab and a sidewalk slab. A traffic rail is shown on top of the sidewalk slab. A construction joint is indicated between the sidewalk slab and the deck slab. The deck slab has a thickness of 40 units. The sidewalk slab has a thickness of 40 units. The diagram also shows the reinforcement bars (rebar) within the concrete slabs.

Half Section at Mid-Span

Half Section at Face of Pier Beam
