Subject: Forest Lakes

KDHE has written a letter to Mike Berry of PEC that further complicates the construction of this development. Lindebak was copied in on the letter, since KDHE is also making the City and its contractors sign off on mitigating operations. Please get a copy of the letter and read it.

I'm not aware of any State Regs with respect to the Clean Water Act, but they are writing them as they go. I submit to you that the requirements they are demanding will stop development..this one included.

It appears that KDHE needs to be contacted and ask if they can come to Wichita and put on a forum for those in the development business. I beleive that if government is going to put these types of requirements on development, we in the business should know in advance of their demands and plan for the bread and soup lines.

I hope Gore is happy.

All jokes aside.....this is very serious.
