

**ON SAFETY  
PHASE II**

**THE CITY OF WICHITA**

**OFFICE OF ENGINEERING**

**DATE July 18, 1974**

**TO Eugene L. Pirtle, First Assistant City Attorney**

**FROM Darrell R. Brewer, Right-of-Way and Estimating Engineer**

**SUBJECT Local Housing Authority Street Dedication  
Farmington Square Addition**

The Engineering Division has checked the legal description and the dedication instrument and compared them to the drawing submitted by Professional Engineering Consultants. The description and dedication have been prepared from an engineering field survey; the calculations submitted verify the dimensions. We feel the drawing prepared by Professional Engineering Consultants should be attached to the dedication instrument and filed as an exhibit.

Please have Local Housing Authority furnish the Engineering Division with a copy of the recorded dedication and exhibit for the Farmington Square Addition plat file.
