City of Wichita  
City Engineering Department  
455 N. Main  
City Hall 7th Floor  
Wichita, Kansas 67202

Dear Ms Spring,

We wish to express our appreciation to the city engineering department for sharing with us their plans for the placement of a new fire station, No. 16, on the property Lot 1, Block 1 at the proximity of 16th Street and Tyler Road.

We also appreciate your giving us the opportunity to share in partially paving 16th Street, adjacent to our church property, known as Northwest Village, 3rd Addition, Lot 1, Block 1. The Session, which is the governing body of the Covenant Presbyterian Church, was presented with your proposal and after much thought and discussion it is their consensus that the construction of this road would be of no real value to us at the present time. We are aware that future plans to complete 16th Street as a through street is contemplated at a later date and we welcome that addition.

We are returning the paving petition that was submitted to us for the present project as we feel that signing this document would subject us to an obligation that we do not wish to assume at this time.

Thank you for your interest on our behalf.

Cordially yours,

Charles R. Wilson  
Property Committee Chairperson
