Re: Final Plat S/D 87-25 - WILTEL'S ADDITION

Dear Gentlemen:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, March 26, 1987, the above-captioned plat was considered. The action of the Committee was to recommend that this plat be approved subject to:

- A. Since neither municipal water nor sanitary sewer is available to serve this property, the applicant shall contact the Environmental Health Division of the Health Department to find out what tests may be necessary and what standards are to be met for approval of on-site sewerage facilities and water wells. A memorandum shall be obtained specifying approval.
- B. The final plat tracing shall label the point of beginning.
- C. The final plat tracing shall label the centerline of 101st Street North.
- D. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- E. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(C).
- F. Recording of the plat within 30 days after approval by the Board of City Commissioners.

The enclosed "marked" copy of the final plat is for your information and files.
