Attention: Mr. Chris Breitenstein, P.E.
Drainage Engineer

Reference: Oak Cliff 3rd Addition
PEC File No. 36-83348-1120

Dear Mr. Breitenstein:

Transmitted herewith are two (2) sets of Revised Drainage Plans and Preliminary Storm Sewer Profiles for the referenced addition.

Some pipe sizes and slopes have been revised as you requested for better clearance of future roadway elevations.

Also enclosed are two copies of our calculations for channel size and for Design Water Surface at the southwest corner of the plat, just upstream from the Maple Street Structure.

As discussed in our meeting on September 27, we request the City Staff to review their proposed profile grades on Maize Road to reduce or eliminate backwater from the Cowskin Creek.

If you have any questions or need any additional information, please advise.

Very truly yours,

PROFESSIONAL ENGINEERING CONSULTANTS, P.A.

Charles S. Brown
