

SUBDIVISION COMMITTEE
METROPOLITAN AREA PLANNING COMMISSION

AGENDA ITEM NO. 2
FEBRUARY 3, 2005

STAFF REPORT
(Preliminary Plat)

CASE NUMBER: SUB 2005-05 -- CLIFTON COVE ADDITION

OWNER/APPLICANT: Caywood, LLC, Attn: Jay W. Russell, P.O. Box 75337, Wichita, KS 67275-0337

SURVEYOR/ENGINEER: Baughman Company, P.A., 315 Ellis, Wichita, KS 67211

LOCATION: South side of 63rd St. South, West of Clifton

SITE SIZE: 51.4 acres

NUMBER OF LOTS

Residential:	109
Office:	
Commercial:	
Industrial:	
Total:	<u>109</u>

MINIMUM LOT AREA: 8,814 sq. ft.

CURRENT ZONING: RR, Rural Residential, SF-20, Single-Family Residential

PROPOSED ZONING: SF-5, Single-Family Residential

VICINITY MAP

SUB 2005-05 -- Preliminary Plat of CLIFTON COVE ADDITION
February 3, 2005 - Page 2

NOTE: This site is located in the County adjoining Wichita's city limits and annexation is required. It consists of a replat of the Woodvale Addition in addition to unplatted property. The site is located within the 100-year floodplain.

STAFF COMMENTS:

- A. Prior to this plat being scheduled for City Council review, annexation of the property will need to be completed. Upon annexation, the property will be zoned SF-5, Single-Family Residential and allow for the lot sizes being platted.
- B. The applicant shall guarantee the extension of sanitary sewer and City water to serve the lots being platted. City Engineering needs to comment on the need for other guarantees or easements.
- C. City Engineering needs to comment on the status of the applicant's drainage concept.
- D. County Engineering has requested a drainage concept. The applicant needs to address drainage from 63rd St. South to Reserve B. Minimum pad elevations may be needed based on the drainage plan.
- E. Turnarounds need to be platted for Cedardale Circle and Clifton.
- F. Traffic Engineering has approved the access controls. The plat proposes one street opening to 63rd St. South. The final plat shall reference the dedication of access controls in the plattor's text.
- G. The 32-ft narrow local residential street exceeds the 48-lot limit for loop streets. A modification will need to be approved.
- H. The Applicant shall guarantee the paving of the proposed streets. The guarantee shall also provide for sidewalks on at least one side of all 64-ft through, non cul-de-sac streets.
- I. For Reserve B which includes a swimming pool, a site plan shall be submitted with the final plat, for review and approval by the Planning Director. The site plan shall include the information indicated in the Subdivision Regulations. Otherwise a conditional use and public hearing will be needed in the future.
- J. The final plat shall state in the plattor's text the purposes of the proposed reserves as well as the ownership and maintenance responsibilities.
- K. Provisions shall be made for ownership and maintenance of the proposed reserves. The applicant shall either form a lot owners' association prior to recording the plat or shall submit a covenant stating when the association will be formed, when the reserves will be deeded to the association and who is to own and maintain the reserves prior to the association taking over those responsibilities.
- L. For those reserves being platted for drainage purposes, the required covenant which provides for ownership and maintenance of the reserves shall grant, to the City, the authority to maintain the drainage reserves in the event the owner(s) fail to do so. The covenant shall provide for the cost of such maintenance to be charged back to the owner(s) by the governing body.

SUB 2005-05 -- Preliminary Plat of CLIFTON COVE ADDITION
February 3, 2005 - Page 3

- M. Since this plat proposes the platting of narrow street right-of-way with adjacent "15-foot street drainage and utility easements", a restrictive covenant shall be submitted which calls out restrictions for lot-owner use of these easements. Retaining walls and change of grade shall be prohibited within these easements as well as fences, earth berms and mass plantings.
- N. The applicant shall submit a covenant which provides for four (4) off-street parking spaces per dwelling unit on each lot which abuts a 58-foot street. The covenant shall inventory the affected lots by lot and block number and shall state that the covenant runs with the land and is binding on future owners and assigns.
- O. The applicant shall submit an avigational easement covering all of the subject plat and a restrictive covenant assuring that adequate construction methods will be used to minimize the effects of noise pollution in the habitable structures constructed on subject property.
- P. Approval of this plat will require a waiver of the lot depth to width ratio of the Subdivision Regulations for Lot 6, Block D. The Subdivision Regulations state that the maximum depth of all residential lots shall not exceed 2.5 times the width.
- Q. Since this will be a City plat, in the title block "Wichita" needs to be added.
- R. GIS needs to comment on the plat's street names. Except for any cul de sacs - Clifton, Cedardale and Jade need a street type of Ave, and Sunflower needs a type of Dr. Hollywood needs changed to Sunflower Dr, Sunflower Cir to Sunflower Ct, Summey to Cedardale Ave, and the Clifton that is south of Sunflower to Vassar Ave.
- S. If applicable, the recording information for the proposed pipeline easement shall be indicated on the face of the plat.
- T. The Applicant is reminded that a platting binder is required with the final plat. Approval of this plat will be subject to submittal of this binder and any relevant conditions found by such a review.
- U. The plattor's text shall include language that a drainage plan has been developed for the plat and that all drainage easements, rights-of-way, or reserves shall remain at established grades or as modified with the approval of the applicable City or County Engineer, and unobstructed to allow for the conveyance of stormwater.
- V. The applicant shall install or guarantee the installation of all utilities and facilities that are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- W. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- X. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (Phone: 316-946-4556) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.

SUB 2005-05 -- Preliminary Plat of CLIFTON COVE ADDITION
February 3, 2005 - Page 4

- Y. The applicant is advised that various State and Federal requirements (specifically but not limited to the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 317, Valley Center, KS 67147) for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.
- Z. The owner of the subdivision should note that any construction that results in earthwork activities that will disturb one (1) acre or more of ground cover requires a Federal/State NPDES Storm Water Discharge Permit from the Kansas Department of Health and Environment in Topeka. Also, for projects located within the City of Wichita, erosion and sediment control devices must be used on ALL projects. For projects outside of the City of Wichita, but within the Wichita Metropolitan area, the owner should contact the appropriate governmental jurisdiction concerning erosion and sediment control device requirements.
- AA. Perimeter closure computations shall be submitted with the final plat tracing.
- BB. Recording of the plat within 30 days after approval by the City Council and/or County Commission.
- CC. The representatives from the utility companies should be prepared to comment on the need for any additional utility easements to be platted on this property.
- DD. The applicant is reminded that a compact disc (CD) shall be submitted with the final plat tracing to the Planning Department detailing this plat in digital format in AutoCAD, or sent via e-mail to MAPD (cholloway@wichita.gov). This will be used by the City and County GIS Department.

The covenant shall provide for the cost of such maintenance to be charged back to the owner(s) by the governing body.
- L. Since this plat proposes the platting of narrow street right-of-way with adjacent "15-foot street drainage and utility easements", a restrictive covenant shall be submitted that calls out restrictions for lot-owner use of these easements. Retaining walls and change of grade shall be prohibited within these easements as well as fences, earth berms and mass plantings.

SUB 2005-05 -- Final Plat of CLIFTON COVE ADDITION
March 17, 2005 - Page 3

- M. The applicant shall submit a covenant that provides for four (4) off-street parking spaces per dwelling unit on each lot that abuts a 58-foot street. The covenant shall inventory the affected lots by lot and block number and shall state that the covenant runs with the land and is binding on future owners and assigns.
- N. The applicant shall submit an avigational easement covering all of the subject plat and a restrictive covenant assuring that adequate construction methods will be used to minimize the effects of noise pollution in the habitable structures constructed on subject property.
- O. Approval of this plat will require a waiver of the lot depth to width ratio of the Subdivision Regulations for Lot 6, Block D. The Subdivision Regulations state that the maximum depth of all residential lots shall not exceed 2.5 times the width. The Subdivision Committee has approved a modification.
- P. GIS needs to comment on the plat's street names. Vasser should be replaced with Vassar.
- Q. If applicable, the recording information for the proposed pipeline easement shall be indicated on the face of the plat.
- R. Based upon the platting binder, property taxes are still outstanding. Before the plat is scheduled for City Council consideration, proof shall be provided indicating that all applicable property taxes have been paid.
- S. The signature line for the Deputy within the Register of Deeds certificate needs to be revised to reference "Tonya Buckingham".
- T. The plat's text shall include language that a drainage plan has been developed for the plat and that all drainage easements, rights-of-way, or reserves shall remain at established grades or as modified with the approval of the applicable City or County Engineer, and unobstructed to allow for the conveyance of stormwater.
- U. The applicant shall install or guarantee the installation of all utilities and facilities that are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- V. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- W. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (Phone: 316-946-4556) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- X. The applicant is advised that various State and Federal requirements (specifically but not limited to the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 317, Valley Center, KS 67147) for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.
- Y. The owner of the subdivision should note that any construction that results in earthwork activities that will disturb one (1) acre or more of ground cover requires a Federal/State NPDES Storm Water Discharge Permit from the Kansas Department of Health and Environment in

Topeka. Also, for projects located within the City of Wichita, erosion and sediment control devices must be used on ALL projects. For projects outside of the City of Wichita, but within the Wichita Metropolitan area, the owner should contact the appropriate governmental jurisdiction concerning erosion and sediment control device requirements.

- Z. Perimeter closure computations shall be submitted with the final plat tracing.
- AA. Recording of the plat within 30 days after approval by the City Council and/or County Commission.
- BB. The representatives from the utility companies should be prepared to comment on the need for any additional utility easements to be platted on this property.
- CC. The applicant is reminded that a compact disc (CD) shall be submitted with the final plat tracing to the Planning Department detailing this plat in digital format in AutoCAD, or sent via e-mail to MAPD (cholloway@wichita.gov). This will be used by the City and County GIS Department.

HMS * Summary of Results for Pond

Project : Clifton Cove Run Name : Run 6

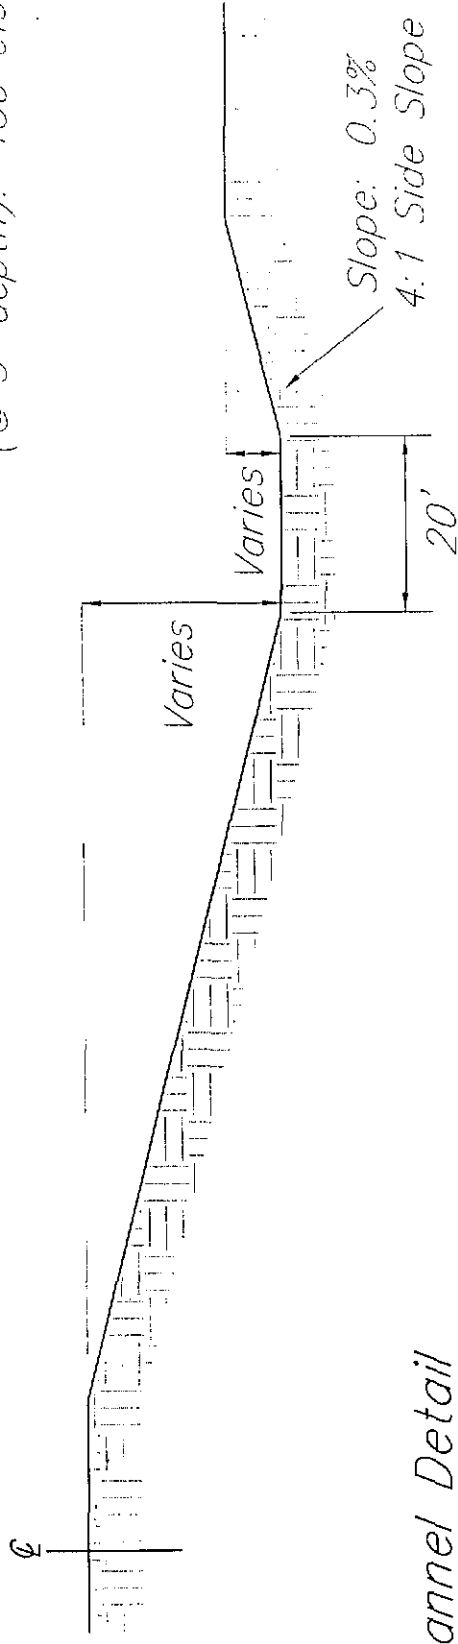

Start of Run : 05Mar05 0000 Basin Model : Diversions
 End of Run : 06Mar05 2400 Met. Model : Met 1
 Execution Time : Undefined Control Specs : Control 1
