VICINITY MAP

SUB 2010-09 -- One-Step Final Plat of ELDERSLIE 2ND ADDITION
March 29, 2012 - Page 2

NOTE: This site is located in the County in an area designated as "rural" by the Wichita-Sedgwick County Comprehensive Plan.

The Subdivision Committee may recommend a modification of the design criteria in Article 7 of the Subdivision Regulations only if it finds that the strict application of the design criteria will create an unwarranted hardship, the proposed modification is in harmony with the intended purpose of the Subdivision Regulations and the public safety and welfare will be protected.

STAFF COMMENTS:

- A. Since sanitary sewer is unavailable to serve this property, the applicant shall contact County Code Enforcement to find out what tests may be necessary and what standards are to be met for approval of on-site sewerage facilities. A memorandum shall be obtained specifying approval.
- B. The site is currently located within the Sedgwick County Rural Water District No. 2. If service is available, feasible and the property is eligible for service, County Code Enforcement recommends connection.
- C. If improvements are guaranteed by petition(s), a notarized certificate listing the petition(s) shall be submitted to the Planning Department for recording.
- D. The plat's text shall include language that a drainage plan has been developed for the plat and that all drainage easements, rights-of-way, or reserves shall remain at established grades or as modified with the approval of the applicable City or County Engineer, and unobstructed to allow for the conveyance of stormwater.
- E. County Public Works has approved the access controls. The plat denotes one opening along Hillside.
- F. County Public Works has approved the drainage plan.
- G. Sedgwick County Fire Department advises that the plat will need to comply with the Sedgwick County Service Drive Code.
- H. In the surveyor's certificate, the reference to "K.S.A. 12-512(b)" should read "K.S.A. 12-512b."
- I. The signature block for the Board of County Commissioners should be revised to read underneath the signature line, "Tim R. Norton, Commissioner, Second District."
- J. The applicant shall install or guarantee the installation of all utilities and facilities that are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- K. The Register of Deeds requires all names to be printed beneath the signatures on the plat and any associated documents.
- L. Prior to development of the plat, the applicant is advised to meet with the United States Postal Service Growth Management Coordinator (Phone: 316-946-4556) in order to receive mail delivery without delay, avoid unnecessary expense and determine the type of delivery and the tentative mailbox locations.
- M. The applicant is advised that various State and Federal requirements (specifically but not limited to the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 317, Valley Center, KS 67147) for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.
- N. The owner of the subdivision should note that any construction that results in earthwork activities that will disturb one (1) acre or more of ground cover requires a Federal/State National Pollutant Discharge Elimination System Stormwater Discharge Permit from the Kansas Department of Health and Environment in Topeka. Also, for projects located within the City of Wichita, erosion and sediment control devices must be used on ALL projects. For projects outside of the City of Wichita, but within the Wichita metropolitan area, the owner should contact the appropriate governmental jurisdiction concerning erosion and sediment control device requirements.
- O. Perimeter closure computations shall be submitted with the final plat tracing.

P. The representatives from the utility companies should be prepared to comment on the need for any additional utility easements to be platted on this property.

Q. A compact disc (CD) should be provided, which will be used by the City and County GIS Departments, detailing the final plat in digital format in AutoCAD. Please include the name of the plat on the disc. If a disc is not provided, please send the information via e-mail to Kathy Wilson (e-mail address: kwilson@wichita.gov).
