**Eagles Landing at North Oliver 2<sup>nd</sup> Addition Pond Outfall Modification.**

Project Description :

This project is intended to raise the static pool elevation of the pond in Res. "C" , Eagles Landing at North Oliver 2<sup>nd</sup> Addition by one foot. Please see the following pages showing the calculations of the pond drainage area for the 100 year event. The 100 year event will still be held within the platted reserve and all adjacent lots will continue to have a minimum of one foot of free board above the 100 year water surface elevation.

This project disturbs less than one acre and is exempt from NOI/SWPPP permitting and from City of Wichita water quality permitting.

Stormwater Certification Statement :

I, Austin E. Gottlob P.E. , a Professional Engineer in the State of Kansas, hereby certify that the storm water calculations for Eagles Landing at North Oliver 2<sup>nd</sup> Addition Reserve "C" Pond Modification , were prepared in accordance with the current Storm Water Management Regulations as set forth in the City of Wichita's Storm Water Management Ordinance 16.32 and the policies/guidelines presented in the Wichita/Sedgwick County Storm Water Manual.
