Re: Lillie Addition  
Notice of Intent for Construction Stormwater

Dear Mr. Wooten:

KDHE is in receipt of a Notice of Intent (NOI) and supporting documentation for authorization of stormwater discharges from the referenced project under the Kansas Stormwater Runoff from Construction Activities General Permit. Upon review, it was noted that the submittal is either missing necessary information or the proposed stormwater pollution prevention plan does not provide reasonable measures to adequately control the discharge of stormwater pollutants from the construction site.

Attached to this letter is a checklist indicating the additional information that is needed or measures to be taken to correct the stormwater pollution prevention plan. Please submit the requested information or corrected stormwater pollution prevention plan to this office in a timely manner so that we can proceed with the review of the NOI and issuance of the authorization to discharge construction stormwater. Only those items checked or marked need to be addressed.

If you have any questions regarding this letter or the information being requested, please contact the reviewer indicated on page 2 of the checklist.

Sincerely,

Dorothy I. Geisler  
Stormwater Coordinator
