Office:	
Commercial:	
Industrial:	
Total:	<u>23</u>

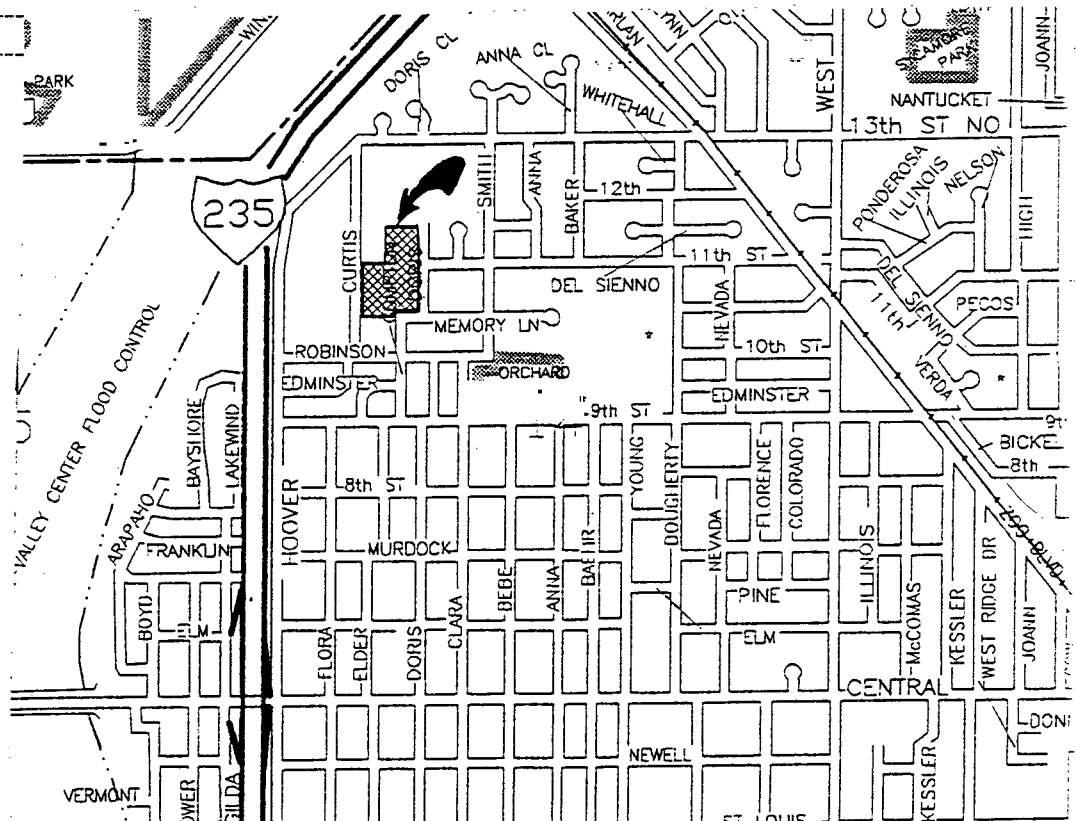

*MAIN S, SS #22*

**MINIMUM LOT AREA:** 8,435 sq. ft.

**CURRENT ZONING:** "AA"

**PROPOSED ZONING:**

**VICINITY MAP:**

NOTE: This plat is a revised final plat of the Addition approved by the Planning Commission March 28, 1996. The original plat included a lot adjacent to Curtis Street. However, the owner of that particular parcel no longer wishes to be a party to the plat and consequently, the revised plat is necessary in order to eliminate that property from the Subdivision.

In regard to conditions under which the original plat was approved, they are essentially unchanged and comments A through P are the same as originally approved except for some minor changes to lot number. Any new comments are listed beyond comment P.

STAFF COMMENTS:

- A. The applicant shall guarantee the extension of sanitary sewer to serve the lots being platted.
- B. The applicant shall guarantee the extension of City water to serve the lots being platted.
- C. The applicant shall guarantee any drainage improvements required by the platting of this property. These guarantees may be included with the paving guarantees.
- D. The applicant shall guarantee construction of the storm sewers required by this plat.
- E. The applicant shall guarantee the paving of all streets adjacent to and/or passing through this site, this including Doris, 11th Street North, Curtis, and Memory Lane.

In regard to those areas in which only a half street of right-of-way is being shown (Memory Lane adjacent to Lots 14, 15 & 16, Block B and 11th Street adjacent to Lots 5, 6, 7, and 8, Block B), the applicant shall attempt to obtain the dedication of the needed rights-of-way by separate instrument. If the applicant is unable to obtain this right-of-way, he shall request that the City proceed with condemnation of the needed rights-of-way. The costs of any such condemnation may be included in the paving guarantees.

- F. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- G. In regard to Lots 1 and 2, Block A, approval of this plat will require a waiver of the lot depth to width ratio of the Subdivision Regulations. The Subdivision Regulations state that, "the maximum depth of all residential lots shall not exceed 2-1/2 times the width thereof."
- H. The applicant shall submit an avigational easement covering all of subject plat and a restrictive covenant assuring that adequate construction methods will be used to minimize the effects of noise pollution in the habitable structures constructed on subject property.
- I. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)

- J. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- K. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-729-0102) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- L. Prior to this plat being released for recording, the applicant shall provide proof that ownership of the site has been acquired by the applicant. The platting binder presently indicates the site in two other ownerships rather than the applicant's.
- M. The applicant shall also provide proof that all applicable property taxes (1995) have been paid.
- N. The final plat shall reference a tie point to a previously platted lot corner or section corner.
- O. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
- P. Recording of the plat within 30 days after approval by the City Council.
- Q. On the final plat tracing, the MAPC chairman shall be indicated as John C. Frye.
- R. On the final plat tracing, "Deputy" shall be deleted from the City Clerk's signature line.
- S. City Engineering needs to indicate if this revised plat alters in any way required drainage improvements.
