Maximum building coverage, floor area, uses and signage permitted does not change.

On the basis of our review, we feel that adjusting the CUP in the manner you have requested is consistent with the approved CUP and will not have an adverse effect on the CUP or on adjacent properties, nor will it be a substantial deviation of the original plan.

This CUP adjustment shall not be deemed to alter any other provisions of the CUP except expressly stated herein. Our signatures below indicate that the CUP shall be adjusted as follows:

The building setback along 21st Street North shall be decreased from 100 to 35 feet; allowable signage along Amidon shall be increased by 9 square feet (1.15%) for a 23 square foot sign; and the allowable signage on 21st Street North shall be increased by 5 square feet (1.26%) for a 124 square foot sign.

The "Development Application" signs may now be removed from the property. Please submit four (4) copies of the revised CUP drawing within 60 days in order for this adjustment to be considered final.

RE: CUP2012-00034 - City request for an Administrative Adjustment to the Sweetbriar Shopping Center Community Unit Plan (CUP) DP-7, to reconfigure Parcels 1 & 4 and reduce the setback around Parcel 4; generally west of Amidon Avenue on the north side of 21st Street North.

Dear Applicant:

We received and reviewed your request for an administrative adjustment to the above-referenced community unit plan, DP-7 the Sweetbriar Shopping Center Community Unit Plan ("CUP"). We understand you wish to reduce the size of Parcel 1, allowing Parcel 4 to become larger. Building coverage and floor area will be distributed proportionately to the newly reconfigured parcels as indicated on the revised CUP. Uses permitted on the newly created parcels do not change. You are also proposing the reduction of Parcel 4's setback to accommodate redevelopment on the larger and reconfigured Parcel 4.

Parcel 4's size is currently 150' (x) 125', and is configured as a rectangle. As proposed it's reconfiguration will be 200' (x) 250', plus a 70' wide 'finger' extending another 120' east along the north side of the Parcel. The 70' (x) 120' 'finger' and the additional 50' of width (150' to 200' – north to south) and 125' of length (125' to 250' - east to west) are all taken from Parcel 1.

The proposed larger and reconfigured Parcel 4's setback is proposed to be reduced from 100' and 63.92' to 35'. Both the current setbacks and the proposed setback are running parallel to Parcel 4's south property line and its 21st Street North frontage. The requested reduction matches minimum of 35' for a CUP. The requested reduction of the setback will have minimal impact on the surrounding commercial development.

On the basis of our review, we find that adjusting the CUP in the manner stated in the above paragraph is consistent with the approved CUP and will not have an adverse effect on the CUP or on adjacent properties, nor will it be a substantial deviation of the original plan.

Our signatures below indicate that the CUP shall be adjusted as stated in this letter. This CUP adjustment shall not be deemed to alter any other provisions of the CUP except expressly stated herein.

The “Development Application” signs may now be removed from the property. Please submit four (4) copies of the revised CUP drawing within 60 days in order for this adjustment to be considered final.
