STAFF REPORT

CASE NUMBER: VAC2007-00048: Request to vacate a portion of a platted easement

OWNER/APPLICANT: Central Congregation of Jehovah's Witnesses c/o Curtis Bowen

LEGAL DESCRIPTION: Generally described as the north 416.64-feet of the platted 60-foot drainage & utility easement, running parallel to the west lot line of Lot 1, Block 1, the Northeast Elementary School Addition, Wichita, Sedgwick County, Kansas

LOCATION: Generally located west of Woodlawn Avenue, on the south side of 29th Street North (WCC #1)

REASON FOR REQUEST: Additional space for development as a future church site

CURRENT ZONING: Subject property and all adjacent and abutting properties are zoned "SF-5" Single-family Residential

VICINITY MAP:

The applicant is requesting consideration for the vacation of the described platted easement. The site is undeveloped and was owned by USD 259, subsequently the installation of water and sewer lines reflect what was planned to be a school site. The subject site has access to sewer along its 29th Street frontage. At this time the subject site has no direct access to water, which would have to be extended from property that the applicant does not own or bored under 29th Street North. There is 40-foot of half street right-of-way along the site's 29th frontage, which is substandard. Per the GIS map there are no manholes, sewer or water lines in the easement. Comments from Storm Water and franchised utilities have not been received and are needed to determine if they have utilities located within the easement. The Northeast Elementary School Addition was recorded with the Register of Deeds July 9, 2002.

Based upon information available prior to the public hearings and reserving the right to make recommendations based on subsequent comments from City Public Works/Water & Sewer/Storm Water, Traffic, franchised utility representatives and other interested parties, Planning Staff recommends approval to vacate the portion of the platted drainage and utility easement as described in the legal description with the following conditions.

- (1) Vacate only that portion of the platted easement as described in an approved legal description, as approved by City Water & Sewer, Public Works, Storm Water and franchised utilities. Retain the easement until all comments from all utilities have been received. Provide Planning Staff the approved legal description of the vacated portion of easement, via e-mail on a Word document.
- (2) Any relocation or reconstruction of utilities made necessary by this vacation shall be the responsibility and at the expense of the applicant. Provide City Public Works, Water & Sewer, Storm Water and franchised utilities with any needed plans for review for relocation of utilities. Provide any guarantees needed for the relocation of utilities. Provide any easements needed for the relocation of utilities. All must be completed prior to proceeding to Wichita City Council for final action.
- (3) Dedicate 20-feet of right-of-way along 29th Street North. Provide to Planning for recording with the Vacation Order at the Register of Deeds.
- (4) The applicant will have to complete a lot split, which will reflect their ownership of that portion of Lot 1, Block 1, Northeast Elementary School Addition, which they intend to build on, as separate from the USD 259 owned portion of the same lot.
- (5) All improvements shall be according to City Standards and at the applicant's expense.
- (6) Per MAPC Policy Statement #7, all conditions to be completed within one year of approval by the MAPC or the vacation request will be considered null and void. All vacation requests are not complete until the Wichita City Council or the Sedgwick County Board of County Commissioners have taken final action on the request and the vacation order and all required documents have been provided to the City, County and/or franchised utilities and the necessary documents have been recorded with the Register of Deeds.
