SUBJECT: DP-83 Amendment #1 - Southwest Plaza Commercial
C.U.P. Generally located at the northeast corner of
31st St. South and Meridian.

On February 3, 1987, the City Commission approved the above-captioned C.U.P. amendment which differed from the original C.U.P. in that a second parcel was created on the corner for a service station/convenience store or a financial institution. Approval of the amendment was subject to the property being replatted within one year, or the amended C.U.P. would be considered null and void. The replat has not been completed and ownership of the property has passed from the estate of M.K. Gentry to the Kansas City Life Insurance Company according to records on file in the County Clerk's office. The surveyors who prepared the replat and who tried to get the owners to complete the replatting process have advised us that replatting will not be completed and the associated files (DP-183 Amendment #1 and S/D 87-15 Southwest Plaza 2nd Addition) can be closed.

Therefore, all paper copies and microfilm copies of DP-83 Amendment #1 should be marked "null and void" and the original DP-83, approved in 1977, is valid once again. If you need copies of the original DP-83, please let us know.

Re: Final Plat S/D 87-15 - SOUTHWEST PLAZA 2ND ADDITION

Dear Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on March 5, 1987, the above-captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of February 26, 1987.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the Board of City Commissioners for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a title report by an abstract or title insurance company or an attorney's opinion that fee title is vested in the plattor.
3. Certification that all real estate taxes for 1986 and all prior years have been paid.

Please call if you have any questions.

Sincerely,

Donald Losew
Junior Planner

Re: Final Plat S/D 87-15 - SOUTHWEST PLAZA 2ND ADDITION

Dear Gentlemen:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, February 26, 1987, the above-captioned plat was considered. The action of the Committee was to recommend that this plat be approved subject to:

- A. The applicant shall guarantee the extension of sanitary sewer to serve Lot 2.
- B. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- C. The applicant is advised that provision #10 of the associated Community Unit Plan, requires the designation of a 24-foot wide, hard surfaced fire lane around all main structures constructed on Lot 1. This fire lane will be designated on the parking plan to be reviewed and approved at the time of building permit review.
- D. In order to assist title companies in determining if buildings constructed on this site property observe the building setbacks required by the associated Community Unit Plan, the final plat tracing shall indicate the building setbacks established by the CUP on the face of the plat.
- E. Since "complete access control" is being dedicated to 30th Street South and St. Clair Avenue from this commercially zoned lot, the sidewalk ordinance provides for the waiving of the sidewalk normally required for this street.
- F. The final plat shall indicate the amount of half-street right-of-way existing for 30th Street South and St. Clair Avenue adjacent to this property. The centerlines of these streets shall be labeled.

- G. Since this replat represents a minor replat of a platted lot, the Planning Commission waives the maximum plat area standard established in the Subdivision Regulations for consideration of final form only plats. Sections 4-501 and 4-502.
- H. The final plat tracing shall indicate the 20-foot wide utility easement needed to provide for the sanitary sewer lateral required to serve Lot 2.
- I. Prior to submitting this plat for scheduling before the City Commission, the applicant shall submit a revised drainage plan to City Engineering for review and approval.
- J. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- K. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- L. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(C).
- M. Recording of the plat within 30 days after approval by the Board of City Commissioners.

Enclosed with the applicant's copy of this letter is a list of the five methods which have been adopted as being acceptable for guaranteeing improvements required in the approval of plats. The certificate will be required if petitions are submitted. Forms for the bond and irrevocable Letter of Credit are available from this office.

The enclosed "marked" copy of the final plat is for your information and files.

This matter will be forwarded to the Planning Commission for its consideration on Thursday, March 5, 1987 at 1:30 p.m. If you have any questions concerning this matter, please call.

Sincerely,

Forrest L. Nagley
Senior Planner

- L. Recording of the plat within 30 days after approval by the Board of City Commissioners.
- M. The representative from the City Engineer's office should be prepared to comment on the status of the applicant's drainage plan. Specifically, are any drainage improvements required?
- N. General provision #15, of the associated Community Unit Plan, states that the need for accel/decel lanes along 31st Street South and Meridian will be determined at the time of platting. In Item C of these comments, the applicant is asked to guarantee the construction of the accel/decel lanes needed to serve the required major entrance serving Lot 1. The representative from the City Engineer's office and the Traffic Engineer should be prepared to state if the development proposed by this 8.29 acre plat (108,338 sq. ft. of floor area) necessitates additional accel/decel lane guarantees for Meridian Avenue or cause a need for a similar guarantee for 31st Street South.
- O. The Traffic Engineer should be prepared to advise if the major entrance to Meridian has been constructed to standards.

NOTE: This plat has been submitted in final form only.
