STAFF REPORT
MAPC: January 25, 2024
DAB V: February 5, 2024

AGENDA ITEM NO. 4.5

CASE NUMBER: ZON2023-00075 (City)

APPLICANT/AGENT: Brian Suellentrop, Sonya Jo Trusdale, Vickie Perrine (Applicants)/Baughman Company, P.A. (Agent)

REQUEST: LC Limited Commercial District

CURRENT ZONING: SF-5 Single-Family Residential District

SITE SIZE: 1.31 acres

LOCATION: Generally located on the west side of North Ridge Road, north of West Maple Street (157, 201, 217 South Ridge Road).

PROPOSED USE: Commercial development.

RECOMMENDATION: Approve.

BACKGROUND: The applicant is requesting a zone change from SF-5 Single-Family Residential District (SF-5) to LC Limited Commercial District (LC) to allow for commercial development. The three properties, which total 1.31 acres in size, are located on the west side of North Ridge Road, north of West Maple Street (157, 201, 217 South Ridge Road). The subject site is currently developed with two single-family dwellings and a vacant lot.

The requested zone change would permit more uses on site than its current zoning. Additionally, it would allow changes to the minimum lot area, minimum lot width, and setback requirements, as demonstrated in the table below.

Development Standard	SF-5 Single-Family Residential District	LC Limited Commercial District
Minimum lot area	5,000 square feet	2,500 square feet for Single-Family; 2,000 square feet per Dwelling Unit for Duplex; 580 square feet per Dwelling Unit for Multi-Family (maximum 75.1 Dwelling Units per acre); no minimum for nonresidential uses
Minimum lot width	50 feet	No minimum
Front setback	25 feet	20 feet
Rear setback	20 feet	No minimum, subject to compatibility standards
Interior side setback	Six feet	Zero feet or 5 feet, subject to compatibility standards
Street side setback	15 feet	No minimum, subject to compatibility standards
Maximum height	35 feet	80 feet, subject to compatibility standards

Since the property to the west is zoned SF-5, it shall be subject to compatibility setback and height requirements under LC zoning. The minimum building compatibility setback shall be 15 feet plus one foot for each five feet of lot width over 50 feet. The width of all three lots is approximately 178 feet, which would require a setback of 26 feet. However, the compatibility setback standards shall not require more than a setback of 25 feet. For compatibility height standards, no structure shall exceed 35 feet in height within 50 feet of the lot line.

Because the property abuts residential zoning on the east and west sides, it will need to provide screening and landscaping. Screening must be installed on the east and west sides of the property, except on the southern half of the property, where it is adjacent to LC zoning. The Unified Zoning Code requires screening fences or walls to be no less than six feet and no more than eight feet in height. The Wichita Landscape Ordinance requires one shade tree or two ornamental trees for every 500 square feet of required landscaped street yard. It also requires landscape buffer trees, which may comprise of either one shade tree or two ornamental trees per 40 lineal feet.

The character of the neighborhood is residential with commercial development on and near the intersection of the two arterial streets. Property to the north is zoned NO Neighborhood Office District (NO), with Protective Overlay #81, and is developed with a commercial business. PO-81 requires the property to have a building with a residential character, requires any freestanding signs to be monument type with a maximum height of eight feet, restricts the point of access onto Ridge Road to be along the northern property line, limits the height of lighting to 14 feet, and requires landscaping in accordance with the Wichita Landscape Ordinance. Property to the south is zoned LC with Protective Overlay #20 and is developed with a restaurant. PO-20 restricts the permitted uses on the property, requires screening and landscaping, prohibits off-site and portable signs, limits lighting to a maximum height of 14 feet, limits access to the site from Ridge Road, and limits the building height to 25 feet. Properties to the east, across South Ridge Road, are zoned SF-5 with CUP DP-42 and LC. They are developed with apartments and a financial institution, respectively. Properties to the west are zoned SF-5 and are developed with single-family dwellings.

CASE HISTORY: On February 10, 1953, the subject properties were platted as Lots 11, 12, 13, Block C of the Westview Addition. There are no zoning cases associated with these properties.

ADJACENT ZONING AND LAND USE:

NORTH:	NO with PO #81	Commercial business
SOUTH:	LC with PO #20	Restaurant
EAST:	SF-5 (CUP DP-42), LC	Apartment complex, financial institution
WEST:	SF-5	Single-family dwellings

PUBLIC SERVICES: The subject properties have access to South Ridge Road, which is a four-lane arterial street with sidewalks on each side. All three properties have access to municipal services, which include water, sewer, and stormwater services. Wichita Transit serves this site within one-quarter mile south, on the northeast corner of South Ridge Road and West Maple Street.

CONFORMANCE TO PLANS/POLICIES: The requested zone change is in partial conformance with the *Community Investments Plan*. The *Community Investments Plan* (the Wichita-Sedgwick County Comprehensive Plan), which includes the 2035 Future Growth Concept Map, recommends the subject site as appropriate for “Residential” uses. The *Plan* defines “Residential” as “*areas that reflect the full diversity of residential development densities and types typically found in a large urban municipality.*” However, the subject site is in between areas depicted on the Map as appropriate for “Commercial” development.

The *Community Investment Plan*’s Locational Guidelines provide a framework for decision-making regarding land use changes so as to: encourage patterns of development that efficiently and effectively use land, public infrastructure, and services; strive for compatibility among various land uses; and, promote quality of place through design. One of the Locational Guidelines for Development Pattern is to “support expansion of existing uses to adjacent areas.” There are existing commercial developments directly north and south of the subject site.

The requested zone change is in conformance with the *Wichita: Places for People Plan*. The subject site is located within an Area of Stability, which the *Plan* defines as “locations within the ECA that exhibit less stress, or fewer economic, connectivity and accessibility issues than the Areas of Opportunity. Areas of Stability require fewer interventions and potentially less public investment to maintain a stable development environment and community. Improvements should be targeted to support development momentum and strengthen the established physical context.” The requested zone change will continue the commercial development along the arterial street.

Strategy 6 in the *Wichita: Places for People Plan* seeks to “encourage infill and redevelopment that is contextual to the environment in which it is occurring.” The applicant is requesting a zone change for commercial development, which is already present directly north and south of the subject site. One of the lots is currently vacant, so it will bring infill to the site.

RECOMMENDATION: Based upon information available prior to the public hearings, planning staff recommends that the request be **APPROVED**.

This recommendation is based on the following findings:

1. **The zoning, uses and character of the neighborhood:** The character of the neighborhood is residential with commercial development on and near the intersection of the two arterial streets. Property to the north is zoned NO Neighborhood Office District (NO), with Protective Overlay #81, and is developed with a commercial business. PO-81 requires the property to have a building with a residential character, requires any freestanding signs to be monument type with a maximum height of eight feet, restricts the point of access onto Ridge Road to be along the northern property line, limits the height of lighting to 14 feet, and requires landscaping in accordance with the Wichita Landscape Ordinance. Property to the south is zoned LC with Protective Overlay #20 and is developed with a restaurant. PO-20 restricts the permitted uses on the property, requires screening and landscaping, prohibits off-site and portable signs, limits lighting to a maximum height of 14 feet, limits access to the site from Ridge Road, and limits the building height to 25 feet. Properties to the east, across South Ridge Road, are zoned SF-5 with CUP DP-42 and LC. They are

developed with apartments and a financial institution, respectively. Properties to the west are zoned SF-5 and are developed with single-family dwellings.

2. **The suitability of the subject property for the uses to which it has been restricted:** The properties are presently zoned SF-5, which is suitable for a limited number of residential, public, and civic uses. It does not allow for commercial uses.
3. **Extent to which removal of the restrictions will detrimentally affect nearby property:** Staff does not anticipate the removal of restrictions to have a significant detrimental impact on nearby property. Screening and landscaping should mitigate any potential detrimental impacts to the adjacent residential properties.
4. **Length of time subject property has remained vacant as zoned:** The middle lot has been vacant since approximately 2015. A single-family dwelling previously stood on the middle lot. The other two lots have been developed with single-family dwellings since 1973 and 1954.
5. **Relative gain to public health, safety, and welfare as compared to the loss in value or the hardship imposed upon the applicant:** Approval would permit new development that is similar to that of the adjacent commercial properties. Denial may represent a loss of economic opportunity for the applicant.
6. **Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies:** The requested zoning is in partial conformance with the *Community Investments Plan* and is in conformance with the *Wichita: Places for People Plan*, as discussed in the staff report.
7. **Impact of the proposed development on community facilities:** Staff does not anticipate the requested zone change to have a significant impact on community facilities.
8. **Opposition or support of neighborhood residents:** At the time the staff report was prepared, staff did not receive any public comment on the requested zone change.
