RE: ZON2023-00078 – Zone change request in the City from TF-3 Two-Family Residential District to MF-29 Multi-Family Residential District to construct a duplex and single-family residence, generally located on the southwest corner of East 1st Street North and North Poplar Avenue (155 North Poplar Avenue, 2411 East 1st Street North)

Dear applicants,

On March 19, 2024, the Wichita City Council considered the above captioned request. The action of the WCC was to **APPROVE** the request.

If you have any questions concerning this matter, please contact our office.

Sincerely,

A handwritten signature in cursive script that reads 'Christina Rieth'.

RE: ZON2023-00078 – Zone change request in the City from TF-3 Two-Family Residential District to MF-29 Multi-Family Residential District to construct a duplex and single-family residence, generally located on the southwest corner of East 1st Street North and North Poplar Avenue (155 N Poplar Ave., 2411 E 1st St. N).

Dear applicant,

At its regular meeting on **February 8, 2024**, the Wichita-Sedgwick County Metropolitan Area Planning Commission considered the above captioned request. The action of the MAPC was to recommend **APPROVAL** of the request.

Property owners opposed to the application may file with the City Clerk a signed, written protest of the MAPC's recommendation. (Unsigned e-mails are not considered to be legal protests.) To be effective, the protest must be filed by 5:00 p.m. on February 22, 2024. In order to be considered a "valid" petition, the signatures must reflect the correct and entire ownership of the property, the property must be at least partially located within 200 feet of the property for which the application was filed, and must be submitted to the City Clerk by **February 22, 2024, at 5:00 p.m.**

This application will be presented to the Wichita City Council on **Tuesday, March 19, 2024**, beginning at 9:00 a.m. The meeting will take place at 455 North Main Street, Wichita, KS 67202.

This is a reminder that the zoning notification signs should now be removed from the property. If you have any questions concerning this application, please contact our office at 316-268-4421.

Sincerely,

Christina Rieth

STAFF REPORT
MAPC: February 8, 2024
DAB I: February 5, 2024

CASE NUMBER: ZON2023-00078 (City)

APPLICANT/AGENT: Nathan O'Quinn, Jr. (Applicant)

REQUEST: MF-29 Multi-Family Residential District

CURRENT ZONING: TF-3 Two-Family Residential District

SITE SIZE: 0.16 acres

LOCATION: Located on the southwest corner of East 1st Street North and North Poplar Avenue (2411 East 1st Street North and 155 North Poplar Ave.)

PROPOSED USE: Duplex and one single-family dwelling

RECOMMENDATION: Approve

BACKGROUND: The applicant is requesting a zone change from TF-3 Two-Family Residential District (TF-3) to MF-29 Multi-Family Residential District (MF-29) in order to build a single-family dwelling and a duplex across two tax parcels. The subject site is 0.16 acres in size and is generally located at the southwest corner of East 1st Street North and North Poplar Avenue (2411 East 1st Street North and 155 North Poplar Avenue). The western parcel is developed with a single-family home, and the eastern parcel is undeveloped. A single-family house previously stood on the eastern parcel was demolished last year.

MF-29 zoning accommodates moderate-density residential development, including single-family, two-family, and multi-family residences at a maximum density of 29 dwelling units per acre. At 0.16 acres, the site is allowed up to four dwelling units. The applicant is requesting to build a total of three units across two tax parcels. While the current zoning allows for a duplex, the subject sites do not have the minimum lot size for the requested density. MF-29 is the most restrictive zoning that allows the number of requested dwelling units between both parcels.

The off-street parking schedule in Article IV-A of the Unified Zoning Code (UZC) requires 1.25 parking stalls per efficiency and one bedroom dwelling unit and 1.75 parking stalls per two bedroom or larger unit. The number of dwelling units will be limited by the number of parking spaces they can provide on-site. The parking requirement may be reduced by Administrative Adjustment.

Since the applicant is proposing a single-family dwelling and a duplex across two parcels, the property would be exempt from implementing landscaping and screening in accordance with the Wichita Landscape Ordinance and the Unified Zoning Code, respectively. However, should the current or future property owners build multi-family housing or non-residential uses on the subject site, it shall be subject to screening and landscaping. While MF-29 zoning allows a maximum height of 45 feet, since it is adjacent to TF-3 zoning, the compatibility height standards limit the proposed development to 35 feet.

Compatibility setback standards shall apply to this property's side and rear lot lines, since it is adjacent to TF-3 zoning. The minimum building compatibility setback is 15 feet plus one foot for each five feet of lot width over 50 feet. However, the rear and street side setbacks in MF-29 zoning are 20 feet, and the width of the combined parcels is 51 feet, so the applicant will adhere to MF-29 zoning standards.

The character of the neighborhood is residential. Properties to the north, across East 1st Street North, are zoned TF-3 and are developed with single-family dwellings. Property to the south is zoned TF-3 and is developed with a duplex. Properties to the east, across North Poplar Avenue, are zoned TF-3 and are vacant and developed with a single-family dwelling. Property to the west, across North Grove Street, is zoned B Multi-Family Residential District (B) and is developed with an outbuilding for a single-family dwelling.

CASE HISTORY: On June 9, 1886, the subject site was platted as Lots 2 and 4 of the Olivers Sub, Blk 5 Chautauqua Addition. There are no zoning cases associated with this property.

ADJACENT ZONING AND LAND USE:

NORTH:	TF-3	Single-family dwellings
SOUTH:	TF-3	Duplex
EAST:	TF-3	Vacant, single-family dwelling
WEST:	B	Outbuilding for single-family dwelling

PUBLIC SERVICES: The properties have access to East 1st Street North and North Poplar Avenue. East 1st Street North is a one-way, one-lane arterial street with sidewalks on each side. North Poplar Avenue is a two-way local street with sidewalks on each side. Municipal services, such as water, stormwater, and sewer already serve the subject properties. Wichita Transit provides service at the southeast corner of East Douglas Avenue and South Green Street, which is one-quarter mile southeast of the subject site.

CONFORMANCE TO PLANS/POLICIES: The requested zone change is in conformance with the following plans and policies:

Community Investments Plan: The requested zone change is in conformance with the *Community Investments Plan*. The *Plan*'s 2035 Wichita Future Growth Concept Map, which outlines the preferred development pattern and land uses within the *Plan* area, identifies the subject site as appropriate for "Residential" development and use. "Residential" areas should "reflect the full diversity of residential development densities and types typically found in a large urban municipality." Adding multi-family development would increase the diversity of residential types and densities in the area, adhering to this component of the *Plan*.

The subject site and surrounding area are located within the Established Central Area (ECA) of the City. Locational Guidelines for the ECA state that "accessory dwelling units, duplexes, and small-scale multi-family developments can be appropriate in existing residential areas if appropriate site design limits adverse impacts on surrounding residential uses, the design of the buildings is compatible with existing residences, and the scale of the development is compatible with the intensity of the surrounding area." The applicant is proposing a single-family dwelling and a duplex to be built on site; there are multiple duplexes in the area. Should the current or future property owner construct multi-family housing on the subject sites, they will be subject to screening and landscaping, which limits the adverse impacts on surrounding residential uses.

Central Northeast Area Plan: The requested zone change is in conformance with the *Central Northeast Area Plan*. One of the *Plan*'s goals is "to protect the neighborhood fabric by ensuring that the rate of new home construction exceeds the housing demolition rate in the Central Northeast Area." While a single-family home was demolished on the eastern parcel, the applicant intends to build a duplex on that site, which increases the housing supply.

Wichita: Places for People Plan: The subject area is identified as an "Area of Opportunity" by the *Wichita: Places for People Plan*. Areas of Opportunity are defined as "areas that generally exhibit economic challenges, a disconnected development pattern and a lack of walkable places and facilities. These areas need strategic investment, both public and private, to assist in redefining and reinvigorating the area." Small-scale infill development, like the requested duplex development, can be supported by the current market of the area, and build market support for larger development projects in the future.

The zone change request also aligns with Strategy 6 of the *Wichita: Places for People Plan*: "Encourage infill and redevelopment that is contextual to the environment in which it is occurring." The subject site is proposing a duplex and single-family dwelling. There are five duplexes within 250 feet of the subject site.

RECOMMENDATION: Based upon information available prior to the public hearings, planning staff recommends that the request be **APPROVED**. This recommendation is based on the following findings:

1. **The zoning, uses, and character of the neighborhood:** The character of the neighborhood is residential. Properties to the north, across East 1st Street North, are zoned TF-3 and are developed with single-family dwellings. Property to the south is zoned TF-3 and is developed with a duplex. Properties to the east, across North Poplar Avenue, are zoned TF-3 and are vacant and developed with a single-family dwelling. Property to the west, across North Grove Street, is zoned B Multi-Family Residential District and is developed with an outbuilding for a single-family dwelling.
2. **The suitability of the subject property for the uses to which it has been restricted:** The subject properties are zoned TF-3 Two-Family Residential District. The current zoning allows for a single-

- family dwelling or duplex, but neither property has sufficient minimum lot size to build any residential structure.
3. Extent to which removal of the restrictions will detrimentally affect nearby property: Approval of the request would allow all uses permitted in the MF-29 Multi-Family Residential District on the site. Staff does not anticipate the removal of restrictions to detrimentally affect nearby property. The applicant is requesting the zone change to allow a single-family dwelling and duplex on site, both of which are abundant in the surrounding neighborhood.
 4. Length of time subject property has remained vacant as zoned: The eastern parcel has been vacant since last year, when a single-family dwelling was demolished. The western parcel has been developed with a single-family dwelling since 1916.
 5. Relative gain to the public health, safety, and welfare as compared to the loss in value or the hardship imposed upon the applicant: Approval of this request could provide an economic gain to the applicant, which is generally considered a gain to the public welfare. However, any gain must be considered in light of the possible negative impacts to the public welfare, including the effects of future development on neighboring properties. Denial could be regarded as a loss of economic opportunity for the applicant.
 6. Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies: The requested zone change is in conformance with the *Community Investments Plan*, the *Central Northeast Area Plan*, and the *Wichita: Places for People Plan*, as discussed in the staff report.
 7. Impact of the proposed development on community facilities: The Planning Department does not anticipate the requested zone change will have a significant impact on community facilities. Existing public infrastructure at the site should accommodate uses under the proposed MF-29 District zoning.
 8. Opposition or support of neighborhood residents: At the time of publication of the staff report, staff has not received any public comments regarding this case.
