Metropolitan Area Planning Commission

STAFF REPORT
MAPC: June 13, 2024

CASE NUMBER: ZON2024-00023 (County)

APPLICANT: Sherwood Construction Company (Applicant)/Baughman Company (Agent)

REQUEST: LC Limited Commercial District

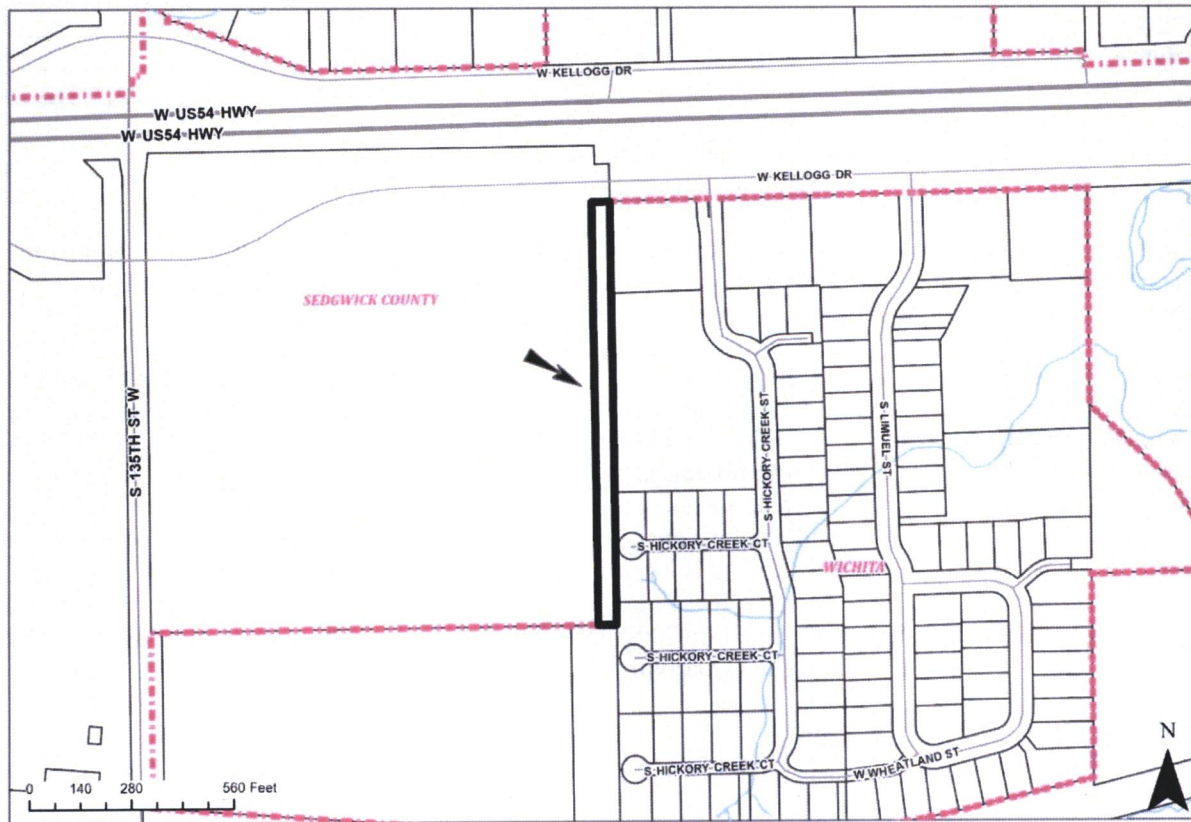

CURRENT ZONING: SF-20 Single-Family Residential District

SITE SIZE: 1.34 acres

LOCATION: Generally located south of West Kellogg and east of South 135th Street West

PROPOSED USE: Eliminate the landscaping requirements for adjacent properties.

RECOMMENDATION: Approve.

BACKGROUND: The applicant is requesting a zone change from SF-20 Single-Family Residential District (SF-20) to LC Limited Commercial District (LC) on 1.35 acres of a 38-acre property. The subject site is located south of West Kellogg Drive and east of South 135th Street West. The subject site is undeveloped.

The applicant is requesting this zone change to eliminate the landscaping requirements on the adjacent property. The properties to the east are zoned LC with CUP DP-320 and are located in the City of Wichita. The Wichita Landscape Code “seeks to protect residential developments from surrounding uses, soften harsh expanses of pavement, and screen undesirable views.” CUP DP-320 requires the property owner to install landscaping per the Wichita Landscape Code. This requires owners of commercial properties adjacent to residential zoning to plant at least one shade tree (or two ornamental trees) per 40 lineal feet for screening, with additional regulations for parking lots.

Unincorporated Sedgwick County does not have any landscaping requirements. Should the zone change request be approved, the applicant shall still be subject to the screening requirements set forth in Section IV-B of the Unified Zoning Code (UZC), which requires a six to eight-foot solid screening fence for commercially zoned properties adjacent to residential zoning. The applicant shall be required to screen on the west side of the subject site at the time a commercial use is developed.

Should the zone change request be approved, there shall be an increase in permitted uses on site, such as two-family and multi-family residential development at a density of 75.1 dwelling units per acre and commercial uses, such as office space and retail. The zone change shall also alter the requirements for minimum setbacks, minimum lot size, minimum lot width, and maximum height, as demonstrated in the table below:

Development Standard	SF-20 Single-Family Residential District	LC Limited Commercial District
Minimum lot area	20,000 square feet	5,000 square feet
Minimum lot width	100 feet	No minimum
Minimum front setback	25 feet	20 feet
Minimum rear setback	25 feet	Ten feet
Interior side setback	Ten feet	Zero feet
Street side setback	20 feet	Ten feet
Maximum height	35 feet or 45 feet if located at least 25 feet from all lot lines; no maximum height limit for agricultural buildings	45 feet

However, the applicant has indicated they do not intend to develop the property. The width of the area that the applicant is requesting to rezone is 50 feet wide; additionally, the southern half of the property contains a retention pond that was excavated from a previous Conditional Use request.

The character of the neighborhood is undeveloped and low-density residential development. Immediately north of the subject site is West Kellogg Drive and U.S. Highway 54. Property to the south is zoned PUD Planned Unit Development (PUD #47), is owned by the applicant, and is currently undeveloped. PUD #47 is anticipated to be a multi-family residential development with custom setbacks and landscaping in lieu of solid screening. Properties to the east are zoned LC with CUP DP-320 and are located within the City of Wichita. The LC properties are undeveloped to the north and developed with duplex development within CUP DP-320 to the south. Property to the west is zoned SF-20, is owned by the applicant, and is located within unincorporated Sedgwick County.

CASE HISTORY: The subject site is not platted. In 2002, the Metropolitan Area Planning Commission granted the subject site a Conditional Use for Mining and Quarrying (CON2002-00035).

ADJACENT ZONING AND LAND USE:

NORTH:	None	West Kellogg Drive/U.S. Highway 54
SOUTH:	PUD	Undeveloped
EAST:	LC with CUP DP-320	Undeveloped, duplexes

PUBLIC SERVICES: The portion of the property included in the zone change request is immediately south of West Kellogg Drive, which is a two-way local street with no sidewalks. The site does not have access to any Rural Water District.

CONFORMANCE TO PLANS/POLICIES: The requested zone change is in conformance with the *Community Investments Plan*, which identifies the site as “Residential and Employment Mix” on the 2035 Future Growth Concept Map. This category is described as follows: “Encompasses areas of land that likely will be developed or redeveloped by 2035 with uses predominately of a mixed nature. Due to the proximity of higher intensity businesses uses, residential housing types within this area likely will be higher density. Due to the proximity of residential uses, employment uses likely will have limited negative impacts associated with noise, hazardous emissions, visual blight, and odor.” The requested zone change allows for a limited number of commercial uses, which match the zoning of the properties to the east.

The *Community Investments Plan*’s Locational Guidelines “encourage patterns of development that efficiently and effectively use land, public infrastructure, and services; strive for compatibility among land uses; and, promote quality of place through design.” One of the *Plan*’s general Guidelines aims to “support expansion of existing uses to adjacent areas.” Should the applicant’s zone change request be approved, the zoning shall match that of the properties immediately east of the subject site.

RECOMMENDATION: Based upon the information available at the time the staff report was completed, staff recommends **APPROVAL** of the request.

The recommendation is based on the following findings:

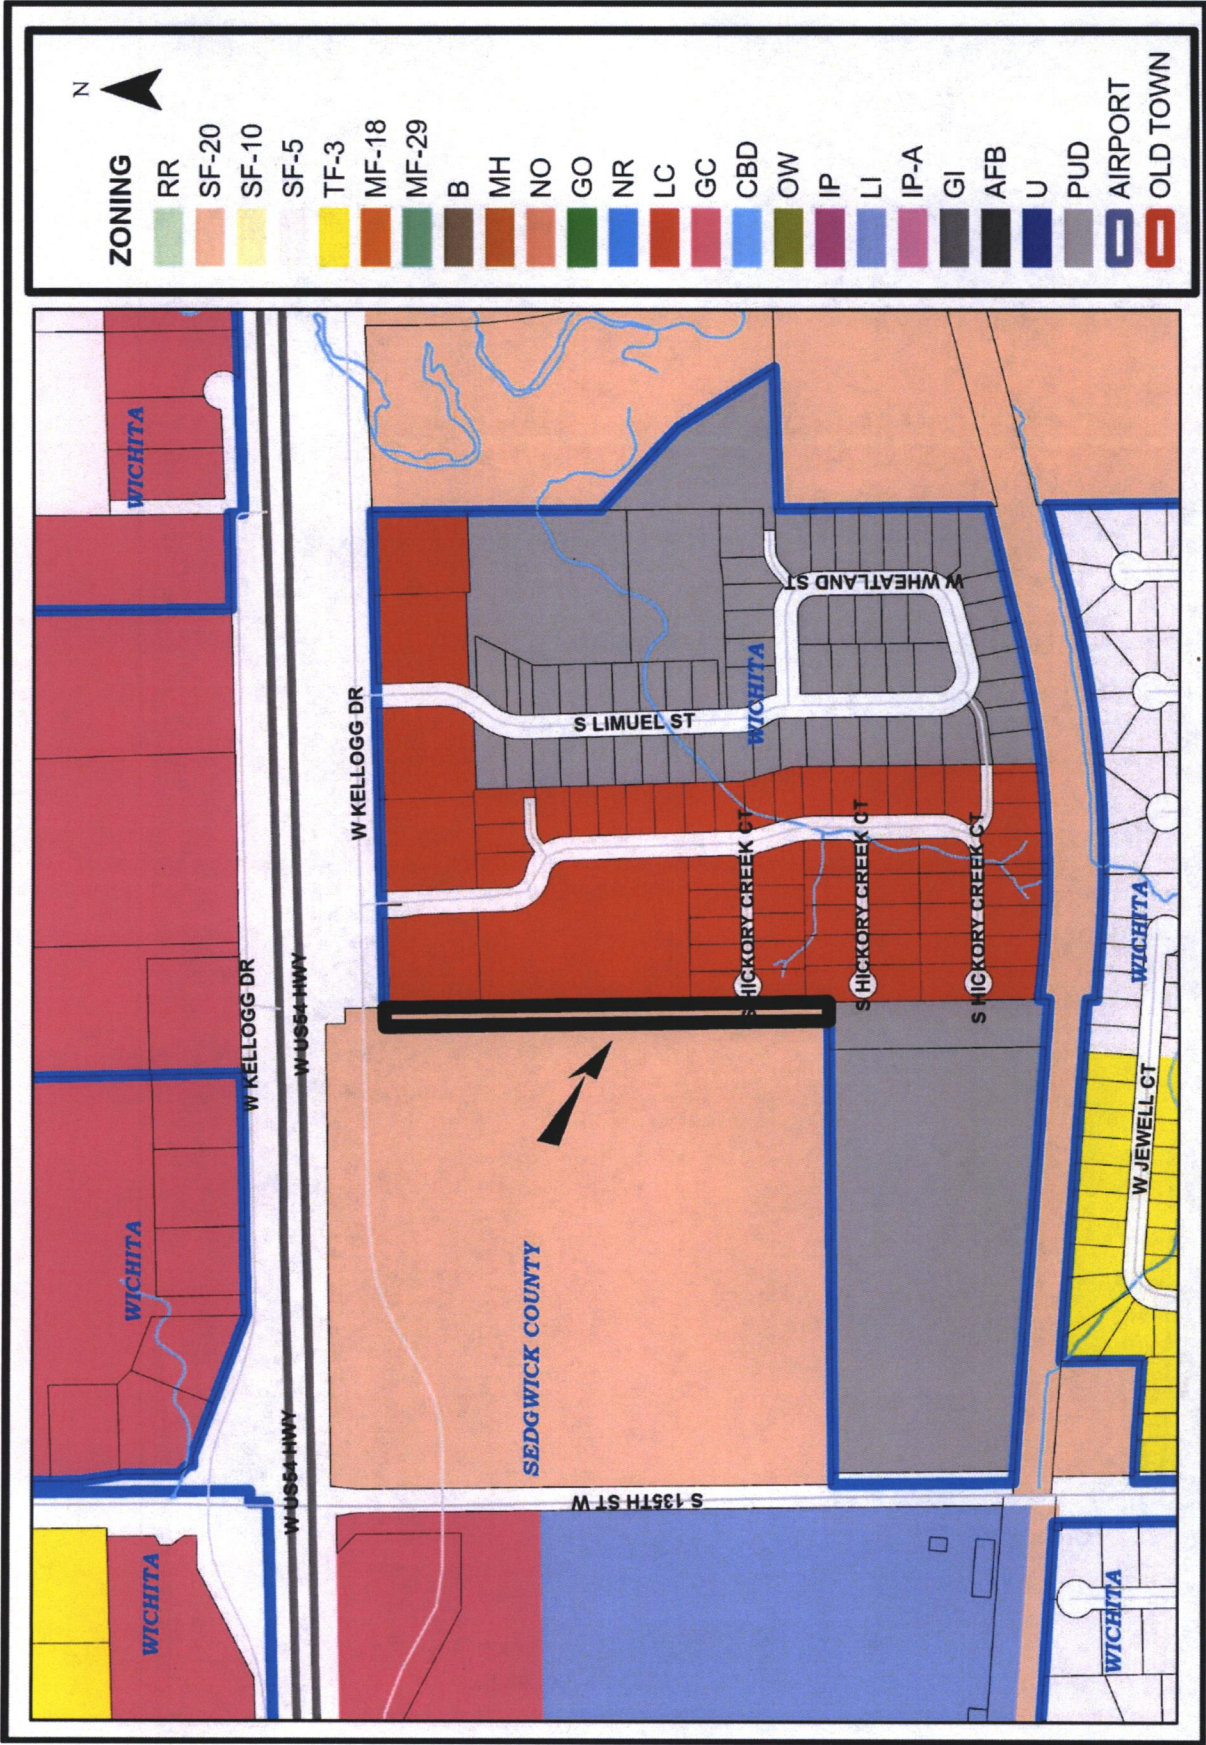

1. **The zoning, uses and character of the neighborhood:** The character of the neighborhood is undeveloped and low-density residential development. Immediately north of the subject site is West Kellogg Drive and U.S. Highway 54. Property to the south is zoned PUD Planned Unit Development (PUD #47), is owned by the applicant, and is currently undeveloped. PUD #47 is anticipated to be a multi-family residential development with custom setbacks and landscaping in lieu of solid screening. Properties to the east are zoned LC with CUP DP-320 and are located within the City of Wichita. The LC properties are undeveloped to the north and developed with duplex development within CUP DP-320 to the south. Property to the west is zoned SF-20, is owned by the applicant, and is located within unincorporated Sedgwick County.
2. **The suitability of the subject property for the uses to which it has been restricted:** The property is presently zoned SF-20 Single-Family Residential District, which is mostly suitable for low-density residential use. Landscaping is not required in unincorporated Sedgwick County.
3. **Extent to which removal of the restrictions will detrimentally affect nearby property:** Staff does not anticipate the removal of restrictions to have significant detrimental impacts on nearby property. The width of the portion being rezoned, along with the existing retention pond on the southern half of the subject site, do not accommodate commercial development large enough to significantly have detrimental impacts the proposed duplex development to the south.
4. **Length of time the property has been vacant as currently zoned:** The subject site has never been developed.
5. **Relative gain to the public health, safety, and welfare as compared to the loss in value or the hardship imposed upon the applicant:** Approval of the request would allow limited commercial development, given the width and topography of the subject site. Denial of the application would further limit the development on site and require the property owner to the east to install landscaping on the applicant’s eastern property line.

6. **Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies:** The requested zone change is in conformance with *The Community Investments Plan* as discussed in the staff report.
7. **Impact of the proposed development on community facilities:** It is not anticipated that development of the property will have significant negative impacts on community facilities or resources.
8. **Opposition or support of neighborhood residents:** At the time of the publication of the staff report, staff has not received any comments from the public.
