Re: V-1944 - Request to vacate a drainage and utility easement

Gentlemen:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission, Thursday, January 4, 1996, the above-captioned vacation request was considered. The action of the Committee was to recommend that this vacation be approved subject to:

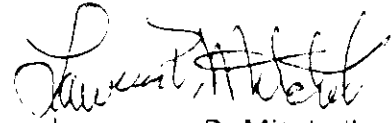

- A. The substitute easement to be provided by the applicant shall first be submitted to City Engineering for review, then subsequently to Planning for processing with the vacation case.
- B. As requested by KG&E, a portion of the easement requested for vacation does need to be retained. The applicant shall therefore either submit a revised legal description which excludes the area requested by KG&E or a substitute easement (a separate one or if appropriate, the one noted above in A.) submitted which provides for this area of easement. In either case, KG&E needs to verify the acceptability of the submittal. Further, since the substitute easement being proposed by the applicant will be located within a private KG&E easement, a letter shall be submitted to Planning from KG&E indicating that this is acceptable.
- C. The applicant shall be responsible for the relocation or reconstruction of any improvements made necessary by this vacation.

This matter will be forwarded to the Planning Commission for its consideration on Thursday, January 11, 1996 at 1:30 p.m. If you have any questions, please call - 268-4459.
