REQUEST: Conditional use permit for soil extraction

CURRENT ZONING: "R-1" Suburban Residential and "LC" Light Commercial Districts

SITE SIZE: 27.4 acres (approximately 1,300' x 900')

LOCATION: East side of Ridge Road, 400 feet north of 47th Street South.

PROPOSED USE: Soil extraction

BACKGROUND: The applicants are requesting a conditional use permit for soil removal on an unplatted tract of land located on the east side of Ridge Road in an area 400 feet north of 47th Street South. The application area measures 27.4 acres and is zoned "R-1" Suburban Residential, except for the south 200 feet of the west 600 feet of the site, which is zoned "LC" Light Commercial. All but approximately the south 150 feet of the property is within a 100-year floodplain.

If this conditional use permit is approved as requested, the applicants intend to remove topsoil and subsoil from this property in order to create the two ponds depicted on the attached grading plan. The applicants' agent estimates that in order to complete the regrading depicted on the plan, approximately 250,000 cubic yards of soil will need to be removed from the site. The applicants are requesting five years to complete the project. The applicants own the property immediately north and south of the site, but have stated that all truck traffic to and from the soil removal site will be only from adjacent Ridge Road. Ridge Road at this location has two lanes of pavement.

CASE HISTORY: None.
