Re: BZA2009-50: City Administrative Adjustment to reduce parking from 93 to 86 spaces and to reduce the compatibility setback on property zoned NO Neighborhood Office and MF-29 Multi-Family Residential (requested for GO General Office), generally located south of 21st Street North and west of Erie Street.

Legal Description: Lots 3,4,5,6,7,8,9,10,11,12 and 13 except the north 18 feet thereof, block 4; Shadybrook Addition to the City of Wichita, Sedgwick County, Kansas. Property includes Lot 1, Center for Health and Wellness Addition.

Dear Applicants:

We have reviewed your request for an Administrative Adjustment to reduce parking requirements from 93 to 86 spaces for the aforementioned property. We understand that you intend to add on to the existing facility, which would require 93 parking spaces under the Zoning Code. We also understand that the proposed addition is 9 feet from the rear property line, 1 foot less than the 10 foot Zoning Code required setback, and not in conformance with the Zoning Code required 25-foot compatibility setback from the bordering TF-3 zoning. We also understand that the proposed dumpster location is 15 feet from the rear property, 5 feet less than the Zoning Code required 20-foot compatibility setback from TF-3 zoning.

The Unified Zoning Code allows an Administrative Adjustment to reduce parking requirements by up to 25% for renovation projects. The Zoning Code also allows up to a 20% reduction in rear setbacks, and a waiver of compatibility setbacks when certain Zoning Code conditions are met. We find that reducing the required parking from 93 to 86, reducing the rear setback from 10 to 9 feet, waiving the building compatibility setback, and reducing the dumpster compatibility setback from 20 to 15 feet on the aforementioned property meets the four conditions required by Section V-I.6 of the Unified Zoning Code as set out below:

- 1) **Impact on safety and convenience of vehicular and pedestrian circulation**: This request is to reduce off-street parking and setback requirements for the expansion of an existing facility. Sufficient parking should be provided on site. Improvements on the site do not affect public right of way and therefore will not affect vehicular and pedestrian circulation.

City Hall • 10th Floor • 455 North Main • Wichita, Kansas 67202-1688

T 316.268.4421 **F** 316.268.4390

www.wichita.gov

- 2) Impact on existing uses in surrounding areas: Sufficient parking should be provided on site to meet the parking needs of the facility, based on the applicant's information. Likewise, screening requirements will ensure the proposed building and dumpster have no impact on surrounding areas.
- 3) Compatibility with existing or permitted uses on abutting sites: The requested reductions are within allowable adjustment ranges, and the proposed use is compatible with abutting uses.
- 4) Effect on public health, safety or welfare: There will be no encroachment into public utility easements or right-of-way, therefore, there should be no impact on the public health, safety or welfare, nor will properties or improvements in the vicinity be materially injured.

Our signatures below indicate that an Administrative Adjustment to allow reducing the required parking from 93 to 86, reducing the rear setback from 10 to 9 feet, waiving the building compatibility setback, and reducing the dumpster compatibility setback from 20 to 15 feet for the aforementioned property is hereby granted, subject to the following conditions:

- 1) The site shall be developed in general conformance with the approved site plan.
- 2) The parking area shall be paved and marked in accordance with the site plan.
- 3) The site shall conform to the City of Wichita Landscape Code with a landscape plan to be approved by planning staff.
- 4) If the Zoning Administrator finds that there is a violation of any of the conditions of the Zoning Adjustment, the Zoning Administrator, in addition to enforcing the other remedies set forth in the Unified Zoning Code, may, with the concurrence of the Planning Director, declare that the Zoning Adjustment is null and void.

The zoning adjustment sign may now be removed from the property.
