S/D 98-58 - Final Plat of WILDWOOD ACRES ADDITION

Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on July 30, 1998, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of July 24, 1998, with the exception of Item J.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council and/or County Commission for consideration:

1. Submission of the fully completed and signed tracing of the subdivision, along with (5) copies, to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developments.
4. Submission of a disk to the Planning Department detailing this plat. This will be used by the City and County GIS Departments.

S/D 98-58 - Final Plat of WILDWOOD ACRES ADDITION

Gentlemen:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, July 23, 1998, the above captioned plat was considered. The action of the Committee was to approve the final plat, subject to the following:

- A. Since sanitary sewer is unavailable to serve this property, the applicant shall contact the Environmental Health Division of the Health Department to find out what tests may be necessary and what standards are to be met for approval of on-site sewerage facilities. A memorandum shall be obtained specifying approval. Standard soil testing is required. A site layout is requested to determine the placement of the lagoon.

Health Department should comment on the impact of the pipeline on the buildable area of lots 11, 12 and 13.

- B. The site is currently served by Rural Water District #2. The applicant shall contact this water district to determine the ability of this property being platted to connect to their water line and submit a letter from the water district regarding any requirements.
- C. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning department for recording.
- D. County Engineering needs to comment on the status of the applicant's drainage plan. The drainage plan is approved. Minimum pads need to be denoted.

- E. The applicant shall guarantee the paving of the proposed interior streets to the gravel suburban street standard. **A 36-ft rock standard is required.**
- F. Complete access control shall be dedicated along the site's frontage to Hillside and 69th St. North, with the exception of one opening for Lot 3. On the final plat, the dedication of access controls shall be referenced in the plat's text.

The final plat includes the requested access controls.

- H. The final plat shall contain the appropriate City signature block as the plat is located within three miles of the City's boundary.

The final tracing must contain the signature block for the City of Wichita.

- I. **County Fire requests the final plat contain names for the interior streets, preferably named "circles".**

County Fire needs to comment on the street names. **The street names are acceptable.**

- J. A contingent right-of-way dedication between lots 9 and 10 extending to the east line of the plat is recommended in order to provide potential street connection between this property and the property to the east. This dedication shall be referenced in the plat's text as being effective upon the platting of any adjacent subdivision having a street connecting thereto.
- K. Lots 3, 5, 11 and 12 exceed the 2.5-to-1 lot depth-to-width ratio. A waiver will be needed from this provision if this plat is approved.
- L. For those reserves being platted for floodway purposes, the required covenant which provides for ownership and maintenance of the reserves shall grant, to the County, the authority to maintain the floodway reserves in the event the owner(s) fail to do so. The covenant shall provide for the cost of such maintenance to be charged back to the owner(s) by a method similar to special assessments.
- M. The Chairman of the MAPC needs to be revised to "Richard E. Lopez".
- N. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)

- O. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- P. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-729-0102) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- Q. The applicant is advised that various State and Federal requirements [specifically but not limited to the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 317, Valley Center, KS 67147] for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.
- R. The owner of the subdivision should be aware of the fact that the development of any subdivision greater than five (5) acres in size may require an NPDES Storm Water Discharge Permit from the Kansas Department of Health and Environment in Topeka. Further, on all construction sites located within the City, the City of Wichita requires that best management practices be used to reduce pollutant loadings in storm water runoffs.
- T. Perimeter closure computations shall be submitted with the final plat tracing.
- U. Recording of the plat within thirty (30) days after approval by the City Council and/or County Commission.
- V. The representatives from the utility companies should be prepared to comment on the need for any additional utility easements to be platted on this property.
- W. The applicant is reminded that a disk shall be submitted with the final plat tracing to the Planning Department detailing this plat. This will be used by the City and County GIS Department.

If this plat requires the guaranteeing of improvements, a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also certificates, which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit, are also available from this office.

The enclosed "marked" copy of the plat is for your information and files.

S/D 98-58 -- Final Plat of WILDWOOD ACRES ADDITION
July 24, 1998 -- Page 4

This matter will be forwarded to the Planning Commission for its consideration on Thursday, July 30, 1998, at 1:30 p.m. If you have any questions concerning this matter, please call.

Sincerely,

A handwritten signature in black ink, appearing to read "Neil Evan Strahl". The signature is fluid and cursive, with the first name "Neil" being the most prominent.

METROPOLITAN AREA PLANNING COMMISSION

July 30, 1998

STAFF REPORT

(Final Plat-Approved 07/23/98, Preliminary Plat approved 5/21/98)

CASE NUMBER: S/D 98-58 - WILDWOOD ACRES

OWNER/APPLICANT: Jack Hobbs, P.O. Box 26, Stark, KS 66775

SURVEYOR/ENGINEER: Moehring & Associates, 433 S. Hydraulic, Wichita, KS 67211

LOCATION: Northeast corner of Hillside and 69th St. North

SITE SIZE: 80 acres

NUMBER OF LOTS

Residential:	13
Office:	
Commercial:	
Industrial:	
Total:	<u>13</u>

MINIMUM LOT AREA: 5.0 acres

CURRENT ZONING: RR, Rural Residential

PROPOSED ZONING: Same

VICINITY MAP

Note: Note: This site is located in the County within three miles of the City's boundary. The site is located in an area designated as "agricultural" by the Wichita-Sedgwick County Comprehensive Plan. Lot developments of this type are contrary to the intent of the Comprehensive Plan; however, the MAPC and County Commission have chosen not to create an Agricultural Zoning District to protect against this type of development. It is located in the Kechi Area of Influence. The Kechi Planning Committee voted to deny this plat due to noncompliance with the Comprehensive Plan.

STAFF COMMENTS:

- A. Since sanitary sewer is unavailable to serve this property, the applicant shall contact the Environmental Health Division of the Health Department to find out what tests may be necessary and what standards are to be met for approval of on-site sewerage facilities. A memorandum shall be obtained specifying approval. Standard soil testing is required. A site layout is requested to determine the placement of the lagoon.

Health Department should comment on the impact of the pipeline on the buildable area of lots 11, 12 and 13.

- B. The site is currently served by Rural Water District #2. The applicant shall contact this water district to determine the ability of this property being platted to connect to their water line and submit a letter from the water district regarding any requirements.
- C. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning department for recording.
- D. County Engineering needs to comment on the status of the applicant's drainage plan. The drainage plan is approved. Minimum pads need to be denoted.
- E. The applicant shall guarantee the paving of the proposed interior streets to the gravel suburban street standard. A 36-ft rock standard is required.
- F. Complete access control shall be dedicated along the site's frontage to Hillside and 69th St. North, with the exception of one opening for Lot 3. On the final plat, the dedication of access controls shall be referenced in the plat's text.

The final plat includes the requested access controls.

- H. The final plat shall contain the appropriate City signature block as the plat is

located within three miles of the City's boundary.

The final tracing must contain the signature block for the City of Wichita.

- I. County Fire requests the final plat contain names for the interior streets, preferably named "circles".*

County Fire needs to comment on the street names. The street names are acceptable.

- J. A contingent right-of-way dedication between lots 9 and 10 extending to the east line of the plat is recommended in order to provide potential street connection between this property and the property to the east. This dedication shall be referenced in the plat's text as being effective upon the platting of any adjacent subdivision having a street connecting thereto.
- K. Lots 3, 5, 11 and 12 exceed the 2.5-to-1 lot depth-to-width ratio. A waiver will be needed from this provision if this plat is approved.
- L. For those reserves being platted for floodway purposes, the required covenant which provides for ownership and maintenance of the reserves shall grant, to the County, the authority to maintain the floodway reserves in the event the owner(s) fail to do so. The covenant shall provide for the cost of such maintenance to be charged back to the owner(s) by a method similar to special assessments.
- M. The Chairman of the MAPC needs to be revised to "Richard E. Lopez".
- N. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- O. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- P. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-729-0102) prior to development

of the plat so that the type of delivery, and the tentative mailbox locations can be determined.

- Q. The applicant is advised that various State and Federal requirements [specifically but not limited to the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 317, Valley Center, KS 67147] for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.
- R. The owner of the subdivision should be aware of the fact that the development of any subdivision greater than five (5) acres in size may require an NPDES Storm Water Discharge Permit from the Kansas Department of Health and Environment in Topeka. Further, on all construction sites located within the City, the City of Wichita requires that best management practices be used to reduce pollutant loadings in storm water runoffs.
- T. Perimeter closure computations shall be submitted with the final plat tracing.
- U. Recording of the plat within thirty (30) days after approval by the City Council and/or County Commission.
- V. The representatives from the utility companies should be prepared to comment on the need for any additional utility easements to be platted on this property.
- W. The applicant is reminded that a disk shall be submitted with the final plat tracing to the Planning Department detailing this plat. This will be used by the City and County GIS Department.
