- Utilities shall be installed underground on all parcels.
- Landscaping for this site shall be required as follows:
 - Development of all parcels within the C.U.P. shall comply with the Landscape Ordinance of the City of Wichita.

This plan shall be submitted to the Planning Department for their review and approval prior to issuance of a building permit.
 - A financial guarantee for the plant material approved on the landscape plan for that portion of the C.U.P. being developed shall be required prior to issuance of any occupancy permit, if the required landscape has not been planted.
- Screening Walls:
 - A six (6) to eight (8) foot high concrete/masonry wall shall be constructed along the north property line where adjacent to residential uses. Due to the width of the Reserve/Floodway, the required six (6) to eight (8) foot high concrete/masonry wall along the east property lines of the C.U.P. where adjacent to residential zoning is optional.
 - This solid wall shall be constructed of a pattern and color that is consistent with the building walls.

- Amendments, adjustments or interpretations to this C.U.P. shall be done in accordance with the Unified Zoning Code.
- The Transfer of title of all or any portion of land included within the Community Unit Plan (or any amendments thereto) does not constitute a termination of the plan or any portion thereof, but said plan shall run with the land and be binding upon present owners, their successors and assigns.
- The development of this property shall proceed in accordance with the development plan as recommended for approval by the Planning Commission and approved by the Governing Body, and any substantial deviation of the plan, as determined by the Zoning Administrator and the Director of Planning, shall constitute a violation of the building permit authorizing construction of the proposed development.
- Any major changes in this development plan shall be submitted to the Planning Commission and to the Governing Body for their consideration.
- A plan for a pedestrian walk system shall be submitted and approved by the Director of Planning prior to the issuance of building permits. Said walk system shall link sidewalks along Clifton and 55th Street South with the proposed buildings within the subject property.
