Re: S/D 97-63 - ONE-STEP FINAL PLAT OF CELLULARONE ADDITION

Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on April 30, 1998, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of September 5, 1997.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council and/or County Commission for consideration:

1. Submission of the fully completed and signed tracing of the subdivision, along with five (5) copies, to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developments.
4. Submission of a disk to the Planning Department detailing this plat. This will be used by the City and County GIS Departments.

Re: S/D 97-63- ONE-STEP FINAL PLAT OF CELLULARONE ADDITION

Gentlemen:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, September 4, 1997, the above captioned plat was considered. The action of the Committee was to approve the plat, subject to the following:

A. Municipal services appear to be available to the site. City Engineering needs to comment if any additional guarantees are required and/or the need for any additional easements. **A petition shall be submitted for the extension of a sanitary sewer.**

B. The applicant shall guarantee any drainage improvements required by the platting of this property.

City Engineering should be ready to comment on the applicant's drainage plan. **City Engineering has approved the drainage plan and no guarantee is requested.**

C. Traffic Engineering should comment on the need for any improvements to Murdock, as well as if the number of access points shown are appropriate. **No improvements to Murdock are asked for, however, Traffic Engineering is requesting the driveway be upgraded to City standards.**

D. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.

E. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)

F. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the

notary's signature.

- G. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-729-0102) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- H. The applicant is advised that various State and Federal requirements [specifically but not limited to the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 317, Valley Center, KS 67147] for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.
- I. Perimeter closure computations shall be submitted with the final plat tracing.
- J. Recording of the plat within thirty (30) days after approval by the City Council and/or County Commission.
- K. The representatives from the utility companies should be prepared to comment on the need for any additional utility easements to be platted on this property.

If this plat requires the guaranteeing of improvements a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also, certificates which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit are also available from this office.

The enclosed "marked" copy of the final plat is for your information and files.

This matter will be forwarded to the Planning Commission for its consideration on Thursday, September 11, 1997 at 1:30 p.m. If you have any questions concerning this matter, please call.

Sincerely,

Keith Gooch
