Re: S/D 96-70 - AUTOZONE 2ND ADDITION (Final Plat)

Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on October 31, 1996, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of October 24, 1996.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council and/or County Commission for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developments.

Please call if you have any questions.

Sincerely,

Don Losew
Senior Planner

Re: S/D 96-70 - AUTOZONE 2ND ADDITION (Final Plat)

Gentlemen:

Dirky Huang called 11/16/97 - Survey has been ordered and allegedly closed site survey.

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, October 24, 1996, the above captioned plat was considered. The action of the Committee was to recommend that this plat be approved subject to:

- Dirky Huang has site development*
- A* ~~A~~ The applicant shall abandon the sanitary sewer line presently located in the alley right-of-way proposed for vacation by this plat. Prior to this plat being released for recording, the applicant shall provide proof from City Engineering that such abandonment has been done satisfactorily. *Phil May - is done*
 - B* ~~B~~ The applicant shall guarantee the closure of the alley opening at Minnesota.
 - C* ~~C~~ *CK \$ 230* The applicant shall guarantee the closure of any driveways located in areas designated for complete access control.
 - D* ~~D~~ The applicant shall guarantee any drainage improvements required by the platting of this property. Such improvements may be done at the time of site development.
 - E* ~~E~~ *Paul* If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
 - F* ~~F~~ Right-of-way for Minnesota is indicated at only 50 feet adjacent to this site. Even for residential uses, such right-of-way is well below the accepted standard for older developed areas of 60 feet. For commercial development, such existing right-of-way is even less acceptable. Of the existing 50-feet of right-of-way, 30 feet was apparently dedicated from the plat along the east side of Minnesota. This plat shall therefore provide for the dedication of ten (10) additional feet of right-of-way for Minnesota. This dedication, however, may be done contingently. If verified by City Engineering, a lessor dedication may be allowed. Both the face of the plat and the plat's text shall note such a dedication, indicating that the contingency is based upon a City project to widen this

File Copy

street.

G. Development along Minnesota south of the present alley is generally residential, and even though zoning is for multi-family uses, single-family residences still prevail. Consequently, to minimize traffic impacts in and out of this site in the adjacent residential uses, Complete Access Control to Minnesota shall be indicated for the area south of the southerly driveway shown by this site's development plan (in the area shown with a 70-foot building setback on the plat).

H. Prior to this plat being released for recording, proof shall be provided that this site's ownership is in the party as indicated on the final plat. At this time, the plat binder is indicating a different ownership.

I. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)

J. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.

K. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).

L. Recording of the plat within 30 days after approval by the City Council and/or County Commission.

If this plat requires the guaranteeing of improvements a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also, certificates which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit are also available from this office.

The enclosed "marked" copy of the final plat is for your information and files.

This matter will be forwarded to the Planning Commission for its consideration on Thursday, October 31, 1996 at 1:30 p.m. If you have any questions concerning this matter, please call.

Sincerely,

Don Losew
Senior Planner

STAFF COMMENTS:

- A. The applicant shall abandon the sanitary sewer line presently located in the alley right-of-way proposed for vacation by this plat. Prior to this plat being released for recording, the applicant shall provide proof from City Engineering that such abandonment has been done satisfactorily.
- B. The applicant shall guarantee the closure of the alley opening at Minnesota.
- C. The applicant shall guarantee the closure of any driveways located in areas designated for complete access control.
- D. The applicant shall guarantee any drainage improvements required by the platting of this property. Such improvements may be done at the time of site development.
- E. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- F. Right-of-way for Minnesota is indicated at only 50 feet adjacent to this site. Even for residential uses, such right-of-way is well below the accepted standard for older developed areas of 60 feet. For commercial development, such existing right-of-way is even less acceptable. Of the existing 50-feet of right-of-way, 30 feet was apparently dedicated from the plat along the east side of Minnesota. This plat shall therefore provide for the dedication of ten (10) additional feet of right-of-way for Minnesota. This dedication, however, may be done contingently. If verified by City Engineering, a lessor dedication may be allowed. Both the face of the plat and the platlor's text shall note such a dedication, indicating that the contingency is based upon a City project to widen this street.
- G. Development along Minnesota south of the present alley is generally residential, and even though zoning is for multi-family uses, single-family residences still prevail. Consequently, to minimize traffic impacts in and out of this site in the adjacent residential uses, Complete Access Control to Minnesota shall be indicated for the area south of the southerly driveway shown by this site's development plan (in the area shown with a 70-foot building setback on the plat).
- H. Prior to this plat being released for recording, proof shall be provided that this site's ownership is in the party as indicated on the final plat. At this time, the plat binder is indicating a different ownership.
- I. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- J. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- K. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
- L. Recording of the plat within 30 days after approval by the City Council and/or County

Commission.

Larry Ross's stated reason for voting in the negative was according to his FEMA floodplain maps, a portion of this plat is in the floodway.
