Re: S/D 96-7 - EVANGEL ASSEMBLY OF GOD ADDITION (Final Plat)

Gentlemen:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, March 7, 1996, the above captioned plat was considered. The action of the Committee was to recommend that this plat be approved subject to:

- A. Prior to this plat being submitted to the Wichita City Council, the site shall have been annexed to the City of Wichita. This will allow the plat to be submitted only to the City for approval; otherwise County Commission action would also be required. In any case, annexation of this site is a requirement of plat approval.
- B. The applicant shall guarantee the extension of water and sanitary sewer to serve this site. Sufficient easement along the south line of the plat shall also be granted for the provision of the sanitary sewer improvement.
- C. The applicant shall guarantee any drainage improvements required by the platting of this property. Such improvements may be done at the time of site development.
- D. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- E. Prior to this plat being released for recording, proof shall be provided that all applicable property taxes have been paid on this site. The platting binder indicates that the last half of 1995 property taxes (\$1,123) have not been paid.
- F. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- G. The applicant is advised that various State and Federal requirements [specifically but not

limited to the Army Corps of Engineers, Kanopolis Project Office, Rt. 1, Box 30, Marquette, KS 67464 (913-546-2294) or Kansas Department of Wildlife and Parks, P. O. Box 317, Valley Center, KS 67147] for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.

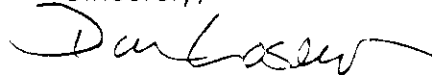

- H. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- I. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
- J. Recording of the plat within 30 days after approval by the City Council.
- K. As requested by Southwestern Bell, a 20-foot utility easement shall be platted along the west line of this site.

If this plat requires the guaranteeing of improvements a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also, certificates which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit are also available from this office.

The enclosed "marked" copy of the final plat is for your information and files.

This matter will be forwarded to the Planning Commission for its consideration on Thursday, March 14, 1996 at 1:30 p.m. If you have any questions concerning this matter, please call.
