Re: S/D 95-18 - C.C.R. 3rd ADDITION (Final Plat)

Dear Mr. Wiley:

At the regular meeting of the Metropolitan Area Planning Commission on March 9, 1995, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of March 2, 1995.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developments.

Please call if you have any questions.

Sincerely,

Don Losew  
Senior Planner

Re: S/D 95-18 - C.C.R. 3rd ADDITION (Final Plat)

Dear Mr. Wiley:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, March 2, 1995, the above captioned plat was considered. The action of the Committee was to recommend that this plat be approved subject to:

- ☒ A. This site will be subject to the zone change (Z-3158) being approved and any relevant requirements involving the site's platting.
- ☒ B. As noted by the applicant's agent, new petitions will be submitted to cover those improvements originally required for the C.C.R. 2nd plat and now needing to be revised due to the changes proposed by this replat.
- ☒ C. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- ☒ D. On the final plat tracing, the platlor's text shall clearly note the plat's dedication of access controls to Rock. The text presently only indicates a control for Lot 1. The text could either simply note that access is being dedicated as indicated on the face of the plat or more precisely identify the three (3) areas of access being allowed.
- ☒ E. On the final plat tracing, a note should be placed on the face of the plat, near the north arrow, indicating that this site is subject to conditions of the Community Unit Plan, DP-215 Amendment #1. As requested by the applicant, rather than platting a building setback along the plat's south line such setback will be based on any such requirement of the noted CUP.
- ☒ F. Prior to this plat being released for recording, the applicant shall submit a letter indicating that buildings along the south line of Lot 2 have been removed.
- ☒ G. Also prior to this plat being released for recording, as noted in the platting binder, proof shall be provided that all applicable property taxes have been paid for this site.

FILE COPY

March 2, 1995

Page 2

- H. The plat is indicating that mortgages on this site are being held by Boatmen's First National Bank of Kansas City. However, the platting binder indicates the mortgages are held by Centerre Bank of Kansas City. The applicant shall submit information indicating that Boatmen's is the appropriate signatory for these mortgages.
- I. The applicant shall submit an avigational easement covering all of subject plat and a restrictive covenant assuring that adequate construction methods will be used to minimize the effects of noise pollution in the habitable structures constructed on subject property.
- J. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. (Water service and fire hydrants required by Article 8 for fire protection shall be as per the direction and approval of the Chief of the Fire Department.)
- K. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- L. Perimeter closure computations shall be submitted with the final plat tracing Section 5-101(c).
- M. Recording of the plat within 30 days after approval by the City Council.
- N. As noted by City Engineering, the final plat tracing shall provide additional utility easement in the southeast portion of the plat, to adequately cover an existing public sewer line.

If this plat requires the guaranteeing of improvements a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also, certificates which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit are also available from this office.

The enclosed "marked" copy of the final plat is for your information and files.

This matter will be forwarded to the Planning Commission for its consideration on Thursday, March 9, 1995 at 1:30 p.m. If you have any questions concerning this matter, please call.

Sincerely,

Don Losew  
Senior Planner
