Re: S/D 94 - 50 MCCLERNON ADDITION (Final Plat)

Dear Mr. Armstrong:

At the regular meeting of the Metropolitan Area Planning Commission on July 28, 1994, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of July 21, 1994.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developers.

Please call if you have any questions.

Sincerely,

A handwritten signature in dark ink, appearing to read "Don Losew by rh".

Re: S/D 94-50 (Final Plat) MCCLERNON ADDITION

Gentlemen:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, July 21, 1994, the above captioned plat was considered. The action of the Committee was to recommend that this plat be approved subject to:

A. H.D. 7/21/94
Since neither municipal water nor sanitary sewer is available to serve this property, the applicant shall contact the Environmental Health Division of the Health Department to find out what tests may be necessary and what standards are to be met for approval of on-site sewerage facilities and water wells. A memorandum shall be obtained specifying approval. Because of the size of this lot, approval must be for a septic sanitary sewer system.

B.
The applicant shall guarantee any drainage improvements required by the platting of this property.

C. Pl. J. Weber, 11/2/94 - done & used from this plat - have R.O.W. from [unclear] at street.
Prior to submitting the final plat tracing, the applicant shall meet with County Engineering to determine if any additional right-of-way needs to be dedicated from this site for a cul-de-sac needed to terminate Delaware at the north end of this plat. If required by Engineering such right-of-way dedication shall be shown on the final plat tracing.

D.
Since this site is not adjacent to an arterial nor is it a double frontage lot, no access control needs to be dedicated. Both the face of the plat and the plat's text shall delete such reference.

E.
On the final plat tracing, a tie-point, referencing the section-range-township shall be indicated on the face of the plat.

F.
As indicated by the platting binder, a mortgage is being held on this site. The holder of such mortgage shall be a signor of the plat or proof shall be provided that the mortgage has been released.

- G. The final plat shall indicate the utility easements requested by K.G. & E. and Southwestern Bell which are indicated on the enclosed "marked" copy of the plat.
- H. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- I. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- J. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-946-4527) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- K. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
- L. Recording of the plat within 30 days after approval by the City Council.

If this plat requires the guaranteeing of improvements a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also, certificates which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit are also available from this office.

The enclosed "marked" copy of the final plat is for your information and files.

This matter will be forwarded to the Planning Commission for its consideration on Thursday, July 28, 1994 at 1:30 p.m. If you have any questions concerning this matter, please call.

Sincerely,

Don Losew
Senior Planner
