Re: S/D 94-47 - HOPE COMMUNITY BAPTIST CHURCH ADDITION (Final Plat)

Dear Mr. Moehring:

At the regular meeting of the Metropolitan Area Planning Commission on Thursday, November 3, 1994, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of October 27, 1994.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developments.

Please call if you have any questions.

Sincerely,

Don Losew
Senior Planner

Re: S/D 94-47 HOPE COMMUNITY BAPTIST CHURCH ADDITION (Final Plat)

Dear Mr. Moehring:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, October 27, 1994, the above captioned plat was considered. The action of the Committee was to recommend that this plat be approved subject to:

- ☒ A. Since neither municipal water nor sanitary sewer is available to serve this property, the applicant shall contact the Environmental Health Division of the Health Department to find out what tests may be necessary and what standards are to be met for approval of on-site sewerage facilities and water wells. A memorandum shall be obtained specifying approval.
- ☒ B. Based on the proximity of this site to an Addition which is using municipal sanitary sewer and water, guarantees shall be submitted for the future extension of Wichita sanitary sewer and water to this site.
- ☒ C. The applicant shall guarantee any drainage improvements required by the platting of this property.
- ☒ D. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- ☒ E. The final plat shall indicate the recording information for the 40-foot gas line easement on this property. *(being dedicated by this plat)*
- ☒ F. Any relocation, lowering or encasement of the pipeline, made necessary by this development, will not be at the expense of the County.
- ☒ G. The applicant shall submit a copy of the instrument which establishes the Koch Pipeline Easement on this property. The applicant's agent shall determine any setback requirements from the pipeline by researching the text of the pipeline agreement. If a setback from the pipeline easement is provided for in the pipeline easement agreement, it shall be indicated on the face of the plat. It is also the applicant's responsibility to determine that the pipeline

easement is as depicted on the plat and is not a blanket type easement.

According to the platting binder, a Sedgwick County Electric Cooperative Association easement is located in this area. If this easement effects this plat, it needs to either be shown or proof provided that it has been released or if covered by a general public utility easement that this is acceptable to party benefitting from the easement.

On the final plat tracing, the MAPC signature block shall be amended to indicate John W. McKay, Jr. as chairman.

The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.

The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.

Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).

Recording of the plat within 30 days after approval by the City Council.

If this plat requires the guaranteeing of improvements a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also, certificates which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit are also available from this office.

The enclosed "marked" copy of the final plat is for your information and files.

This matter will be forwarded to the Planning Commission for its consideration on Thursday, November 3, 1994 at 1:30 p.m. If you have any questions concerning this matter, please call.

Sincerely,

San Jose
