BACKGROUND: The site is owned by the City of Wichita, is developed with a fire station that has been closed, and is zoned “B” Multi-family Residential. The City of Wichita has designated the site as surplus property, and is offering the property for sale. The applicant is the contract purchaser, and is seeking “LC” Limited Commercial for the site and it’s 3,192 square foot building. At the time this report was prepared, no specific user is under contract to occupy the site.

Surrounding properties are zoned “LC” Limited Commercial and “B” Multi-family Residential, and are developed with apartments, vacant service station, medical offices, automobile services and law offices.

As it is currently developed, the site does not conform with several UZC and Landscape Ordinance requirements for commercial development. The site does not meet the screening and landscape buffer requirements along the east property line that are required because the property to the east is zoned “B” Multi-family Residential. The site may not conform with current parking requirements, which require approximately 10-13 parking spaces depending upon the use of the property. The UZC requires that the non-conformities on the subject property be brought into conformance when the following occurs: 1) any increase on the premises of more than 30 percent floor area or 50 percent value; or 2) any change in use to a more intensive use when a new certificate of occupancy is required.

District Advisory Board VI reviewed this request on January 21, 2004. One member of the public spoke, asking if the proposed zoning would allow a club, car lot or outdoor storage. If that were the case, that person felt the neighborhood would be opposed to the request. The DAB voted 9-2 to recommend approval, and recommended that the applicant add a protective overlay to restrict uses on the property. (Addition of a protective overlay is not recommended since the zoning code or other city ordinances already address these concerns, and the way the site is already developed assist with addressing these concerns.) The MAPC heard the case on January 22, 2004, and recommended approval 8-0. No one spoke in opposition to the request at MAPC. No protest petitions have been received.

No protest petitions have been filed.

Recommendations:

1. Concur with the findings of the MAPC and approve the zone change, subject to platting within one year; instruct the Planning Department to forward the ordinance for first reading when the plat is forwarded to the City Council; or
2. Return the application to the MAPC for reconsideration.

(An override of the Planning Commission’s recommendation requires a 2/3rd majority vote of the membership of the governing body on the first hearing.)
