Re: S/D 94-61 EAST MISSION 2ND ADDITION - (Final Plat)

Dear Mr. Wiley:

At the regular meeting of the Metropolitan Area Planning Commission on August 25, 1994, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of August 19, 1994.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. ✓ Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. ✓ Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developers.

Please call if you have any questions.

Sincerely,

Don Losew
Senior Planner

Mike Lindebak, City Engineer

STAFF COMMENTS:

- A. The driveways to Orme located in an area of complete access control shall be closed during redevelopment of the site.
- B. The applicant shall submit a sidewalk certificate for the installation of a sidewalk along Mission adjacent to both Lots 1 & 2.
- C. Any drainage improvements required by the platting of this property shall be constructed during redevelopment of the site.
- D. As indicated by the Subdivision Regulations, Commercial and Business uses may plat, as a minimum, a 20-foot building setback to an adjacent street if that street can be considered a "side" rather than front type street. On the final plat tracing, a 20-foot building setback shall be indicated to Mission for both Lots 1 & 2.
- E. The final plat shall indicate the platting of the 35-foot building setback from Orme through the existing buildings which encroach into the setback area. Central Inspection has advised that the platting of this building setback does not preclude the property owner from maintaining or remodeling that portion of the buildings within the setback area. The buildings cannot, however, be enlarged within the setback and, if the buildings are removed, any new building construction must observe the platted building setback.
- F. Since this site is in the City, the final plat tracing shall amend the platting text to dedicate the access control to the City of Wichita rather than the appropriate governing body.
- G. As requested by the applicant, the east 60 feet of Lot 2 may be deleted from the final plat tracing and will be platted at a later date.
- H. The applicant shall submit an avigational easement covering all of subject plat and a restrictive covenant assuring that adequate construction methods will be used to minimize the effects of noise pollution in the habitable structures constructed on subject property.
- I. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. Existing east-west overhead utilities may remain until such time as they are relocated underground east and west of this site.
- J. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- K. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
- L. Recording of the plat within 30 days after approval by the City Council.

METROPOLITAN AREA PLANNING COMMISSION
