- P. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- Q. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-946-4527) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- R. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
- S. Recording of the plat within 30 days after approval by the City Council.
- T. The applicant is advised that various State and Federal requirements for the control of soil and wind erosion and the protection of wetlands may impact how this site can be developed. It is the applicant's responsibility to contact all appropriate agencies to determine any such requirements.

If this plat requires the guaranteeing of improvements a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also, certificates which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit are also available from this office.

The enclosed "marked" copy of the final plat is for your information and files.

This matter will be forwarded to the Planning Commission for its consideration on Thursday, December 16, 1993 at 3:30 p.m. If you have any questions concerning this matter, please call.

Sincerely,

Don Losew
Senior Planner

Re: S/D 93-45 BAREFOOT BAY ADDITION (Final Plat)

Dear Mr. Wiley:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, December 9, 1993, the above captioned plat was considered. The action of the Committee was to recommend that this plat be approved subject to:

- ☒ A. Prior to this plat being forwarded to the City Council, the applicant shall request and obtain annexation to Wichita and a zone change to "AA" One-family zoning. This plat shall be subject to any requirements of such an annexation and zone changes. (The required zone change is being submitted as a County Case (SCZ-660) and is scheduled to be heard by the MAPC 12/2/93).
- ☒ B. The applicant shall guarantee the extension of sanitary sewer to serve the lots being platted. This shall also include any needed off-site improvements.
- ☒ C. The applicant shall guarantee the extension of City water to serve the lots being platted. This shall also include any needed off-site improvements.
- ☒ D. The applicant shall guarantee the paving of the proposed interior streets. To access this site, off-site improvements are being provided for North Shore Boulevard.
- ☒ E. The applicant shall guarantee any drainage improvements required by the platting of this property. These guarantees may be included with the paving guarantees.
- ☒ F. The applicant shall submit a letter from the Missouri Pacific Railroad indicating its

agreement to allow the street crossing proposed for this site.

G. Provisions shall be made for ownership and maintenance of the proposed reserves. The applicant shall either form a lot owners' association prior to recording the plat or shall submit a covenant stating when the association will be formed, when the reserves will be deeded to the association and who is to own and maintain the reserves prior to the association taking over those responsibilities. This covenant shall also provide that the applicant will be responsible for the installation of the all weather driving surface required in the emergency access easement located along the east line of Reserve C. The maintenance of such improvements may be placed with the homeowner's association.

H. For those reserves being platted for drainage purposes, the required covenant which provides for ownership and maintenance of the reserves shall grant, to the City, the authority to maintain the drainage reserves in the event the owner(s) fail to do so. The covenant shall provide for the cost of such maintenance to be charged back to the owner(s) by a method similar to special assessments.

I. The applicant shall submit a covenant which provides for four (4) off-street parking spaces per dwelling unit on each lot which abuts a 58-foot street. The covenant shall inventory the affected lots by lot and block number and shall state that the covenant runs with the land and is binding on future owners and assigns.

J. The applicant shall submit a letter indicating that the buildings in Reserve D will be removed upon completion of this site's development or upon a request by the Office of Central Inspection.

K. On the final plat tracing, a reference shall also be placed on the face of the plat (sheet showing the lots) indicating that this site is subject to minimum building pad elevations as referenced in the platting text.

L. On the final plat tracing, the recording information for the off-site dedication of right-of-way, for North Shore, shall be shown. A recorded copy of this dedication shall be submitted for the plat file.

M. The platting text shall be amended on the final plat tracing to indicate that any activity within the floodway needs to be approved by the City rather than appropriate Engineer.

N. Prior to the release of the final plat tracing, the applicant shall provide proof that the property taxes noted in the platting binder have been paid.

O. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
