

NOTE: This site is involved in a zone change (Z-3134) from "B" to "C" zoning.

STAFF COMMENTS:

- A. A drainage plan shall be submitted to City Engineering prior to scheduling this plat for City Council review. The applicant shall guarantee any drainage improvements required by the platting of this property.**
- B. The final plat shall indicate the platting of the 35-foot building setback from Washington through the existing building which encroaches into the setback area. Central Inspection has advised that the platting of this building setback does not preclude the property owner from maintaining or remodeling that portion of the building within the setback area. The building cannot, however, be enlarged within the setback and, if the building is removed, any new building construction must observe the platted building setback.**
- C. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.**
- D. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.**
- E. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).**
- F. Recording of the plat within 30 days after approval by the City Council.**

Re: S/D 94-60 - HEPHNER 2ND ADDITION (Final Plat)

Dear Mr. Savoy:

At the regular meeting of the Metropolitan Area Planning Commission on Thursday, August 25, 1994, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of August 19, 1994.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
g. 21
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
N.A.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developers.
N.A.

Please call if you have any questions.

Sincerely,

Don Losew
Senior Planner
