- E. Since Meridian adjacent to this site is no longer classified as an arterial, no access control needs to be dedicated in this case. The final plat tracing should therefore delete from the face of the plat the reference to "Access Control Except One Opening."
- F. Although the platting binder is indicating that a mortgage exists for "construction" purposes, if this mortgage creates an interest in this site by the mortgage holder (Intrust Bank), such interest must be included as a signatory on the plat.
- G. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c). 9-6-94
- H. Recording of the plat within 30 days after approval by the City Council.
- I. As noted by City Engineering, as indicated by the drainage plan, the applicant shall submit for recording with the plat an off-site drainage agreement.

If this plat requires the guaranteeing of improvements a list of the five methods which have been adopted as being acceptable is available through the Planning Department. Also, certificates which are required if petitions are submitted and forms for the bond and irrevocable Letter of Credit are also available from this office.

The enclosed "marked" copy of the final plat is for your information and files.

This matter will be forwarded to the Planning Commission for its consideration on Thursday, August 11, 1994 at 1:30 p.m. If you have any questions concerning this matter, please call.

Sincerely,

Don Losew
Senior Planner

Re: S/D 94-21 MAUDE CARPENTER FIRST ADDITION (Final Plat)

Gentlemen:

At the regular meeting of the Subdivision Committee of the Metropolitan Area Planning Commission on Thursday, August 4, 1994, the above captioned plat was considered. The action of the Committee was to recommend that this plat be approved subject to:

- A. The applicant needs to either pursue the vacation of Edwards adjacent to this site and northward up to 15th Street North or be prepared to dedicate additional right-of-way for this street as required by the area's zoning and guarantee the paving of this street. Based on the configuration of lots adjacent to this segment of Edwards, a vacation of the street would appear possible if all abutting property owners agree. Based upon how this street was dedicated, it appears that none of the right-of-way would revert to this site, however. In order to properly terminate 14th Street, which intersects Edwards, a guarantee for a turnaround and possibly right-of-way would be involved.

If the applicant wishes to pursue a vacation case, the vacation case would need to be submitted as a separate request and would need to be submitted prior to the plat being scheduled for City Council review. If a vacation is not pursued, the final plat tracing shall dedicate three (3) feet of additional right-of-way and a guarantee shall be provided for the paving of Edwards from 14th to 15th Streets North. Sidewalks shall also be included in this guarantee.

*Vacation
application

9-6-94*

- B. ✓ The applicant shall submit a sidewalk certificate for the installation of a sidewalk along Meridian adjacent to this plat. However, this certificate shall note that such installation will only be required if and when a sidewalk system is initiated for the area in general.
- C. ✓ The applicant shall guarantee any drainage improvements required by the platting of this property. These improvements may be part of site development. *off-site drainage*
- D. ✓ The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
