

STAFF COMMENTS:

- A. When the zone change for a portion of this site was approved, the applicant agreed to provide a plan and landscaping adjacent to Orme. The applicant shall either prior to the release of the plat for recording complete the landscaping as indicated on the submitted plan or provide a fiscal guarantee for the landscaping. The applicant has indicated that the landscaping has been installed as required.
- B. When the original Schofield-Hatchett Addition was approved, the applicant agreed, as required by the sidewalk ordinance to install sidewalk along the plat adjacent to Gouverneur. A sidewalk certificate was subsequently submitted with this plat. However, this sidewalk has apparently not been installed. Based upon the existing sidewalk in this area, however, the Planning Commission recommends that this requirement be waived.
- C. The area of the zone change involved two existing homes, with driveways out to Orme. This area is now being platted with complete access control. If these drives have not been closed, a guarantee shall be submitted for the closure of these drives. The applicant has indicated that the drives have been closed.
- D. On the final plat tracing the recording information for the drainage easement shall be indicated.
- E. The applicant shall submit an avigational easement covering all of the subject plat and a restrictive covenant assuring that adequate construction methods will be used to minimize the effects of noise pollution in any habitable structures constructed on subject property.
- F. The final plat shall reference a tie point to a previously platted lot corner or section corner.
- G. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- H. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- I. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
- J. Recording of the plat within 30 days after approval by the City Council.

Re: S/D 92-20 SCHOFIELD-HATCHETT 3RD ADDITION (Final Plat)

Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on June 4, 1992, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of May 29, 1992, with, however, the following change in Comment "B".

~~B.~~ The applicant shall submit a sidewalk certificate or agreement approved by the City's Law Department, indicating that the applicant shall install sidewalk along the site's frontage to Gouverneur at such time as sidewalk is installed along Gouverneur immediately to the south of this site or in the area between this site and the school to the south.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developers.

SCHOLFIELD - HATCHETT 3RD ADDITION

WICHITA, SEDGWICK COUNTY, KANSAS

State of Kansas) SS We, Baughman Company, P.A., Surveyors in
Sedgwick County) aforesaid county and state do hereby certify that we have surveyed
