Re: S/D 91-25 (Final Plat) Briarwood Estates 6th Addition

Dear Gary:

At the regular meeting of the Metropolitan Area Planning Commission on December 19, 1991, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of December 13, 1991.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developers.

Please call if you have any questions.

Sincerely,

Don Losew
Senior Planner

cc: Slawson Investment Corp., 104 S. Broadway, Wichita, KS 67202

FILE COPY

ments as well as fences, earth berms and mass plantings. Any plantings within the easement shall be reviewed by the City Forestry Division prior to installation.

As indicated on the final plat, a portion of this easement along the east line of Alderny Court is off-site and will be dedicated by separate instrument. This document shall be submitted with the final plat tracing to the Planning Department.

- G. The applicant shall submit a covenant which provides for four (4) off-street parking spaces per dwelling unit on each lot which abuts a 58-foot and 32-foot street. The covenant shall inventory the affected lots by lot and block number and shall state that the covenant runs with the land and is binding on future owners and assigns.
- H. Prior to this plat being released for recording, the applicant shall submit proof that all outstanding taxes, as indicated in the platting binder, have been paid.
- I. On the final plat tracing the east and west lines of Alderny shall be shown as dashed lines. Solid lines are used to indicate private streets but also in this case it needs to be clearly indicated that this section of the site is public street right-of-way.
- J. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- K. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- L. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-946-4527) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- M. The applicant shall submit a letter from Cablevision indicating that satisfactory arrangements have been made for the relocation of any lines not being covered by a utility easement.
- N. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
- O. Recording of the plat within 30 days after approval by the City Council.

Suite 1, Wichita, KS 67220

LOCATION: Southeast corner of 13th Street North and
119th Street West

SITE SIZE: 9.45 Acres

NUMBER OF LOTS

Residential:	26
Office:	
Commercial:	
Industrial:	
Total:	26

MINIMUM LOT AREA: Approx. 6,600 sq. ft.

CURRENT ZONING: "AA" One Family Dwelling; CUP, DP-136,
Amendment #2

VICINITY MAP:

STAFF COMMENTS:

- A. While the single family uses now being shown in Block 2 are among the uses allowed in parcel 3 of the C.U.P., the change in development plans or patterns, including the elimination of significant open space reserve areas will require the applicant to obtain an adjustment or amendment to the C.U.P., prior to this plat being scheduled for City Council review.

Since this site has already experienced significant development and has active homeowner's associations, a letter should be provided to the Planning Department from the homeowner's association(s) indicating they have no objections to these changes. Further, the applicant shall submit appropriate legal documents for recording which provide for this property to share the responsibility for the maintenance of the reserves platted as a part of the original plat.

- B. Although the applicant may submit square footage figures for the lots or an agreement so that existing specials can be redistributed, it is recommended that new petitions be submitted. If projects are to be abandoned as a result of this replat, the applicant shall pay off any charges against the abandoned projects. If new petitions are provided, the following improvements shall be guaranteed: the extension of municipal water and sanitary sewer, drainage and/or storm sewer improvements, and the paving of the interior streets.
- C. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- D. Provisions shall be made for ownership and maintenance of the proposed reserves. The applicant shall either form a lot owners' association prior to recording the plat or shall submit a covenant stating when the association will be formed, when the reserves will be deeded to the association and who is to own and maintain the reserves prior to the association taking over those responsibilities.
- E. For those reserves being platted for drainage purposes, the required covenant which provides for ownership and maintenance of the reserves shall grant, to the City, the authority to maintain the drainage reserves in the event the owner(s) fail to do so. The covenant shall provide for the cost of such maintenance to be charged back to the owner(s) by a method similar to special assessments.
- F. Since this plat proposes the platting of narrow street right-of-way with adjacent "15-foot street, drainage and utility easements," a restrictive covenant shall be submitted which calls out restrictions for lot-owner use of these easements. Retaining walls and change of grade shall be prohibited within these ease-
