Re: S/D 92-5 Whispering Brook Commercial Addition.

Dear Terry:

At the regular meeting of the Metropolitan Area Planning Commission on May 21, 1992, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of May 15, 1992.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.
3. Subdivision regulations now require a detailed Lot Grading Plan be submitted to Engineering prior to the tracing being released. This applies to all multi-lot and residential developers.

Please call if you have any questions.

Sincerely,

Don Losew
Senior Planner

- F. On the final plat tracing, the platlor's text shall note that in regard to the access controls, the location of openings is to be approved by the City Engineer.
- G. A number of easements, public and private are indicated in the platting binder. The applicant shall submit with the final plat tracing a marked copy of the final plat showing where, on the plat or relative to this plat, these easements are located.
- H. Since the plat is indicating a joint easement for lots 2 and 3, the applicant shall submit to Planning for review, a copy of the agreement effecting this joint access. This agreement should note who benefits from it, how it will be maintained and limitations on its usage. This agreement then needs to be recorded by the applicant with the recording information noted on the final plat tracing.
- I. On the final plat tracing the MAPC signature block shall be amended to indicate Christopher J. Goebel as chairman.
- J. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations. The applicant is advised that additional fire hydrants, using City of Wichita water lines, will be required.
- K. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- L. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
- M. Recording of the plat within 30 days after approval by the City Council.

STAFF COMMENTS:

- A. The applicant shall guarantee the extension of sanitary sewer to serve the lots being platted.
- B. As indicated by the drainage plan cross lot drainage agreements will need to be submitted for this site.
- C. As required by the Whispering Brook Commercial CUP (DP-203) the applicant shall guarantee:
 - 1. The reconstruction of Woodlawn and 37th Street North including any needed median changes to provide left-turn bays and storage in a center turning lane to serve left-turn movements to lots 4 and 5.
 - 2. The construction of continuous accel/decel lanes along Woodlawn and 37th Street North to serve openings to all lots and the partial reconstruction of 37th Street/Woodlawn intersection with raised medials to provide left turns at the intersection and free flowing right turns for east-bound 37th Street North traffic.
 - 3. The construction of temporary third lanes along Woodlawn and 37th Street North adjacent to the plat if development occurs before 37th Street North and Woodlawn are constructed to a four lane standard. The guarantee for the temporary third lane shall be held by the City of Wichita until development occurs or streets are improved to a four lane standard. Partial development would necessitate partial construction of the third lane.

In addition, the above guarantees shall include the construction of that portion of the required major entrances that are within street right-of-way.

- D. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- E. On the final plat tracing, the dedication of street rights-of-way, especially in regard to the major intersection, shall be clearly dimensioned and indicated from the center lines of the adjacent streets. Since this plat is dedicating additional street right-of-way, this shall also be noted in the plat's text.
