STAFF COMMENTS:

- A. The applicant is advised that the required adjustment to the Mooring's C.U.P., DP-78 will need to be approved prior to this plat being submitted to the City Council. This plat will be subject to any conditions of the C.U.P. adjustment.
- B. The applicant shall guarantee the extension of sanitary sewer to serve the lot being platted. Since an off-site easement is required for this extension, it shall be established by separate instrument, this easement shall be approved by City Engineering and submitted to Planning for recording with the plat.
- C. As indicated by the drainage concept, an off-site drainage easement shall be provided, for recording, by separate instrument. This easement shall be submitted to City Engineering for approval and to Planning for recording.
- D. The applicant shall submit a petition for the paving of Cobblestone and Bay Shore Drive adjacent to this site. As a collector street, the paving guarantee for Cobblestone should also provide, as required by the sidewalk ordinance, for sidewalks on both sides of this street. This guarantee will be held until development of other portions of this site warrant construction of these streets. At the time of preliminary plat review, the Subdivision Committee recommended that sidewalk only be required on one side of this collector street. The final decision to waive sidewalk on both sides must be made by the City Council as specified in the Subdivision Regulations and the City Sidewalk Ordinance.
- E. The applicant shall guarantee a north bound left turn lane in Meridian.
- F. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- G. Upon the recording of this plat, Cobblestone shall become a designated residential collector street.
- H. The applicant shall submit a copy of the instrument which establishes the Cities Service Gas Line Easement on this property. The applicant's agent shall determine any setback requirements from the pipeline by researching the text of the pipeline agreement and that use of a part of this pipeline easement as a general utility easement is acceptable.
- I. An ingress and egress easement recorded on Film 263, Page 1490 was shown on the preliminary plat. If this easement is private, the final plat will either have to indicate this easement was previously shown or the applicant will need to submit appropriate

documentation that the easement has been released, if this easement is still listed in the platting binder.

- J. As requested by K.G. & E., the final plat tracing shall indicate along the north line of the plat a utility easement of at least 18-feet in width.
- K. As requested by the Water Department the Building setback along the south line of the plat shall be platted to correspond to the north line of the 20-foot water line easement in the same location.
- L. As requested by the Fire Department, to avoid conflict with an existing private street name, the final plat was not to use the street name of "Bay Shore Drive" for the east-west segment of street along the south line of the plat. It is suggested that the street name of Bachman Drive be used for this street.
- M. On the final plat tracing, the MAPC signature block shall be amended by deleting "Acting" from the Chairman's signature.
- N. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- O. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- P. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(c).
- Q. Recording of the plat within 30 days after approval by the City Council.

Dear Kenny:

At the regular meeting of the Metropolitan Area Planning Commission on April 25, 1991, the above captioned plat was considered. 2. Submission of a check, made out to the Register of Deeds, covering the costs of any documents to be recorded as a requirement of platting.

Please call if you have any questions.
