Re: S/D 89-66 RIVERMILL MEDICAL ADDITION

Dear Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on October 26, 1989, the above captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of October 20, 1989.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a title report by an abstract or title insurance company or an attorney's opinion that fee title is vested in the plattor.
3. Certification that all real estate taxes for 1988 and all prior years have been paid.

Please call if you have any questions.

Sincerely,

R. Timothy Bickhaus
Associate Planner

STAFF REPORT

(Final Plat Approved 10/19/89; Preliminary Plat Approved 9/21/89)

CASE NUMBER: S/D 89-66 - RIVERMILL MEDICAL ADDITION

OWNER/APPLICANT: Universal Motor Fuels, 2824 N. Ohio, Wichita, KS 67219

SURVEYOR/ENGINEER: Mid-Kansas Engineering Consultants

LOCATION: South of 21st St. N., North of the Little Arkansas River at Somerset

SITE SIZE: 3.99 Acres

NUMBER OF LOTS
Residential:
Office: 1
Commercial:
Industrial:
Total: 1

MINIMUM LOT AREA: 3.99 Acres

CURRENT ZONING: "BB" Office District

VICINITY MAP:

STAFF COMMENTS:

NOTE: This property has been approved for "BB" zoning. Platting of the site was not, however, required by the zoning case. Rather, the applicant is replatting the area in order to vacate lots, reserves, easements, etc. originally established by the Rivermill plat of this site.

- A. The applicant shall guarantee the extension of sanitary sewer to serve the lots being platted.
- B. The applicant shall guarantee the extension of City water to serve the lots being platted.
- C. The applicant is advised that drainage improvements required by the platting of this property shall be required at the time of this site's development.
- D. The applicant shall guarantee the closure of the driveway originally located in an area indicated for complete access control as on the preliminary plat, unless that driveway is now to be used as one of the three requested openings.
- E. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- F. As was originally indicated for the Rivermill plat, an off-site utility easement was to be provided for the extension of sanitary sewer to this site. Plans still indicate that such an easement will be used. This easement shall be granted by separate instrument. City Engineering shall approve the easement and the document provided to Planning for recording with the plat.
- G. The platting of the minimum building pad elevation shall be noted on the face of the plat as well as in the plat's text.
- H. As this property is establishing minimum building pad elevations, the face of the plat shall reference the location and elevation of permanent on-site and off-site benchmarks. Section 5-402(N).
- I. The final plat tracing shall indicate if the minimum building pad refers to the lowest floor or opening elevation.
- J. The plat's text shall more clearly state who the 15-foot Maintenance and Access Easement is granted to and for what purpose it is being granted.
- K. The final plat tracing shall indicate the proximity of this plat to the Little Arkansas River as on the preliminary plat.
