Re: Final Plat S/D 87-99 - FOX MEADOW

Dear Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on February 4, 1988, the above-captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of January 29, 1988.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a title report by an abstract or title insurance company or an attorney's opinion that fee title is vested in the platlor.
3. Certification that all real estate taxes for 1987 and all prior years have been paid.

Please call if you have any questions.

Sincerely,

A handwritten signature in dark ink, reading "Donald Losew", is written over a horizontal line.

KNOW ALL MEN BY THESE PRESENTS:

That we, V. HARLEY MILES and RO JEAN MILES, his wife, have caused the land described in the Engineer's Certificate to be platted into lots, blocks, streets and a reserve. The streets are hereby dedicated to and for the use of the public. Easements are hereby granted as indicated for the construction and maintenance of drainage and utilities. Reserve A is reserved for the construction and maintenance of a storm water detention facility to be owned and maintained by the Fox Meadows Homeowners' Association. All abutters rights of access except for one opening per lot to or from 61st Street North over and across the North line of Blocks 1, 2, 3, 4 and 5 are hereby granted to the appropriate governing body. The location of the one permitted access point from the subject lots shall be determined by the appropriate engineer.

V. Harley Miles

STAFF REPORT
(Preliminary Approved 12/3/87)

CASE NUMBER: S/D 87-99 - FOX MEADOW

OWNER/APPLICANT: V. Harley Miles

SURVEYOR/ENGINEER: Poe & Associates of Kansas, Inc.

LOCATION: South of 61st Street North and west of Meridian.

SITE SIZE: 59.0 Acres

NUMBER OF LOTS:

Residential:	77
Office:	
Commercial:	
Industrial:	
Total:	77

MINIMUM LOT AREA: 20,000 Square Feet

CURRENT ZONING: "R-1"

PROPOSED ZONING: "R-1"

VICINITY MAP:

STAFF COMMENTS:

NOTE: This plat was reviewed as a sketch plat.

- A. Since sanitary sewer is not available to serve this property, the applicant shall contact the Environmental Health Division of the Health Department to find out what tests may be necessary and what standards are to be met for approval of on-site sewerage facilities. A memorandum shall be obtained specifying approval.
- B. The applicant shall guarantee the extension of municipal water to serve the proposed lots. This guarantee is required in order to permit the platting of the proposed 20,000 square foot lots within the "R-1" (suburban residential) zoning district.
- C. The applicant shall guarantee the construction of the proposed suburban interior streets.
- D. The applicant shall guarantee any drainage improvements required by the platting of this property.
- E. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- F. If the applicant determines that the cost of immediately extending municipal water to the suburban lots is not economically feasible, and further, if the applicant still desires to plat 20,000 square foot lots rather than the 40,000 square foot building sites required for property not served by municipal water in the "R-1" zoning district, the following is required:
 - 1. The submitting of a restrictive covenant which requires the tying of lots together into a building site with a minimum area of 40,000 square feet until municipal water is extended to serve the property. Attached to the covenant shall be a drawing which indicates the configuration of how the lots will be grouped together to provide a building site containing at least 40,000 square feet of area. The total area of each building site shall be shown. On the final plat tracing, a note shall be referenced on the face of the plat that alerts abstractors, future lot owners, etc., as to the existence of the restrictive covenant.
 - 2. Health Department approval of the building sites for use of on-site water wells.
- G. The final plat shall state in the plat's text the purposes of the proposed reserves as well as who is to own and maintain the reserves.
- H. Provisions shall be made for ownership and maintenance of the proposed reserves. The applicant shall either form a lot owners' association prior to recording the plat or shall submit a covenant stating when the association will be formed, when the reserves will be deeded to the association and who is to own and maintain the reserves prior to the association taking over those responsibilities.

- I. For those reserves being platted for drainage purposes, the required covenant which provides for ownership and maintenance of the reserves shall grant, to the appropriate governing body, the authority to maintain the drainage reserves in the event the owner(s) fail to do so. The covenant shall provide for the cost of such maintenance to be charged back to the owner(s) by a method similar to special assessments.
- J. The applicant shall submit a copy of the instrument which establishes the 60-foot pipeline easement on this property. The applicant's agent shall determine any setback requirements from the pipeline by researching the text of the pipeline agreement.
- K. For the pipeline easement on this property, the final plat shall include in the labeling of the easement the name of the company benefiting from the easement agreement.
- L. The final plat shall indicate the recording information for the 60-foot pipeline easement on this property.
- M. Any relocation, lowering or encasement of the pipeline, made necessary by this development, will not be at the expense of the City or County.
- N. On the final plat tracing, the platlor's text shall reference that the location of access points permitted to 61st Street North shall be determined by the appropriate engineer.
- O. The applicant shall attempt to obtain, by separate instrument, an off-site drainage easement or drainage agreement on the property to the south.
- P. The final plat shall indicate the utility easements requested by K.G.&E. which are marked on the engineer's copy of the approved preliminary plat.
- Q. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- R. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-946-4527) prior to development of the plat so that the type of delivery, and the tentative mailbox locations can be determined.
- S. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- T. Requirements for a final plat (see pages 20-25, Part 4, Article 5 of the MAPC Subdivision Regulations).
- U. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(C).
