

- R. Any relocation, lowering or encasement of the pipeline, made necessary by this development, will not be at the expense of the City.
- S. The members of the Utility Advisory Committee should note that the proposed reserves are not being granted as "blanket utility easements" as has been common practice in the past. All easements for utilities need to be defined within the proposed reserves.
- T. On the final plat tracing, the drainage easements needed with Reserves A, B and C shall be indicated.
- U. On the final plat tracing, the purposes of Reserve E shall be modified to eliminate the word "gatehouse" in favor of using either the word guardhouse or security house. The term gatehouse implies that gate arms will be lower across public street right-of-way. This is not permitted as the subject street is a public street and the general public cannot be refused access to the street. If the street in question was being platted as a reserve for private street purposes, the public could be denied access to the area.
- V. In order to provide for the construction of the guardhouse or security house within Reserve E, the applicant shall apply for and receive approval of this incidental structure in the associated Community Unit Plan. At that time, the issue of setbacks from street curbs will be resolved.
- W. To receive mail delivery without delay, and to avoid unnecessary expense, the applicant is advised of the necessity to meet with the U.S. Postal Service Growth Management Coordinator (phone 316-946-4527) prior to development of the plat so that the type of delivery, and the tentative mail box locations can be determined.
- X. The applicant shall install or guarantee the installation of all utilities and facilities which are applicable and described in Article 8 of the MAPC Subdivision Regulations.
- Y. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(C).
- Z. Recording of the plat within 30 days after approval by the City Council.
- AA. The representative from the City Engineer's office should be prepared to comment on the status of the applicant's drainage plan.

SUBDIVISION REPORT

DIVISION COMMITTEE
METROPOLITAN AREA
PLANNING COMMISSION

S/D No.: 87-51 Name: REFLECTION RIDGE

Preliminary Approved: 7/2/87
Scheduled S/D Meeting: 8/13/87

DESCRIPTION

General Location: North side of 21st Street North, between Ridge Road and Tyler Road.

Owner: Reflection Ridge, Inc., P.O. Box 771069, Wichita, KS 67277-1069

Surveyor/Engineer: Professional Engineering Consultants, P.A., 1440 E. English, Wichita, KS 67211

1. Gross Acreage of Plat: 107.46
2. Number of Lots:
 - Residential: 134
 - Office:
 - Commercial:
 - Industrial:
 - Total: 134
3. Minimum Lot Area: 6,650 Sq. Ft.
4. Existing Zoning: "AA"
5. Proposed Zoning: "AA" and "BB" (office)

STAFF COMMENTS:

NOTE: This final plat represents the platting of a portion of an overall preliminary plat approved on July 2, 1987.

All of the property within this preliminary plat, except for Lot 46, Block 1, is within the perimeter of the Reflection Ridge Residential Community Unit Plan (DP-170).

- Lots 1 thru 26, Block 1 - single-family
- Lots 27 thru 44, Block 1 - zero lot line homes
- Lots 1 thru 9, Block 4 - zero lot line homes
- Lot 45, Block 1 - clubhouse and related recreational facilities
- Lot 46, Block 1 - marketing center (if approved for "BB")
- Lots 1 thru 59, Block 2 - single-family
- Lots 1 thru 13, Block 3 - single-family

- A. The applicant shall guarantee the extension of sanitary sewer to serve the lots being platted.
- B. The applicant shall guarantee the extension of City water to serve the lots being platted.
- C. The applicant shall guarantee the paving of the proposed interior streets.
- D. The applicant shall guarantee the paving of the narrow public streets to the 29-foot wide paving standard.
- E. The applicant shall guarantee construction of the storm sewers required by this plat.
- F. The applicant shall guarantee any drainage improvements required by the platting of this property.
- G. The applicant shall guarantee the construction of a left-turn storage lane on 21st Street North to serve the 21st Street/Tee Time intersection. The option of constructing a 5th lane for this road exists.
- H. The Reflection Road and Tee Time street paving petitions shall provide for the construction of sidewalks on each side of these streets. Reflection Road is a collector street. A sidewalk on one side of Tee Time is proposed on the applicant's sidewalk plan as an alternative to construction of sidewalks on both sides of the collector street.

- I. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- J. The City's sidewalk ordinance provides for the developer to guarantee the construction of sidewalks on both sides of the collector street (Reflection Road). When the preliminary plat was approved, staff suggested that a sidewalk plan be proposed as an alternative to the "both sides of a collector street" requirement. The applicant has chosen to design a sidewalk system with sidewalks on one side of Reflection Road, one side of Wild Rose and one side of Tee Time. The alternate plan provides pedestrian access to the perimeter arterial streets at 4 locations (two to 21st Street, one to Ridge Road and one to 29th Street) whereas the system provided for by the sidewalk ordinance accesses 21st Street at only one point with one point of access to Ridge Road. Staff believes the developer's proposed sidewalk plan offers a much more meaningful pedestrian access system and recommends that the Planning Commission recommend that the City Council waive the requirements of the sidewalk ordinance and accept the alternate sidewalk plan.
- K. Upon the recording of this plat, Reflection Road shall become a designated residential collector street. Since all residential lots abutting this street will not have direct access to it, the collector street may be paved 29 feet in width. The normal collector street pavement is 37 feet. This reduction of pavement width has been agreed to by the Traffic Engineer provided a covenant is filed with the plat which provides that, in the event on-street parking problems materialize, the homeowner's association agrees to pay the cost of installing "No Parking" signs. A draft of this required covenant shall be submitted to staff for review and approval prior to submitting the final plat tracing for scheduling before the City Council.
- L. The applicant shall submit a covenant which provides for four (4) off-street parking spaces per dwelling unit on each lot which abuts a 58-foot street or 32-foot street right-of-way. The covenant shall inventory the affected lots by lot and block number and shall state that the covenant runs with the land and is binding on future owners and assigns.
- M. Provisions shall be made for ownership and maintenance of the proposed reserves. The applicant shall either form a lot owners' association prior to recording the plat or shall submit a covenant stating when the association will be formed, when the reserves will be deeded to the association and who is to own and maintain the reserves prior to the association taking over those responsibilities. It is understood that the reserves being platted for the golf course (Reserves A, B and C) are to be owned and maintained by Reflection Ridge, Inc.
- N. For those reserves being platted for drainage purposes, the required covenant which provides for ownership and maintenance of the reserves shall grant, to the City, the authority to maintain the drainage reserves in the event the owner(s) fail to do so. The covenant shall provide for the cost of such maintenance to be charged back to the owner(s) by a method similar to special assessments.
- O. Since this plat proposes the platting of narrow street right-of-way with adjacent "15-foot street, drainage and utility easements," a restrictive covenant shall be submitted which calls out restrictions for lot-owner use of these easements. Retaining walls and change of grade shall be prohibited within these easements as well as fences, earth berms and mass plantings. Any planting within the easement shall be reviewed by the City Forestry Division prior to installation.
- P. The applicant shall submit a copy of the instrument which establishes the Arkla Pipeline easement on this property.
- Q. The applicant shall provide proof, by letter from the pipeline company or by providing a copy of the pipeline easement agreement, that utilities and buildings may be located adjacent to the easement without restriction of an established setback from the easement. Proof shall also be submitted that the dedication of street right-of-way and the granting of utility easements over and within the pipeline easement is acceptable.

Re: Final Plat S/D 87-51 - REFLECTION RIDGE

Dear Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on August 20, 1987, the above-captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of August 13, 1987.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the City Council for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a title report by an abstract or title insurance company or an attorney's opinion that fee title is vested in the platlor.
3. Certification that all real estate taxes for the first half of 1987 and all prior years have been paid.

Please call if you have any questions.

Sincerely,

Donald Losew
Junior Planner
