STAFF COMMENTS:

NOTE: This property is subject to the provisions of the W.D.C. Parcels 11A and 12 Commercial Community Unit Plan (DP-158). The applicant's associated zone change (Z-2763) requesting "R-6" to "LC" has been approved subject to platting.

- A. The applicant shall guarantee any drainage improvements required by the platting of this property.
- B. The applicant shall guarantee the construction of a decel lane on Rock Road, between 30th Street and 32nd Street to serve this commercially zoned plat. The Community Unit Plan provides for this site to be developed with a maximum of 12 free standing buildings served by six curb cuts to Rock Road. This petition will be held until a need for the decel lane is determined.
- C. If improvements are guaranteed by petition, a notarized certificate listing the petitions shall be submitted to the Planning Department for recording.
- D. At the time the preliminary plat was reviewed by the Subdivision Committee, it was decided that the sidewalk required on 30th Street and 32nd Street would be waived because a sidewalk system does not exist to the west. The sidewalk ordinance empowers the Planning Commission to make this waiver.
- E. The applicant's engineer is advised that the Register of Deeds is requiring the name(s) of the notary public, who acknowledges the signatures on this plat, to be printed beneath the notary's signature.
- F. On the final plat tracing, the face of the plat and the platlor's text shall be changed to reflect the number of access points permitted by the Commercial Community Unit Plan. The C.U.P. allows six points whereas the plat only shows four points.
- G. Since the existing access control to Rock Road is being vacated and rededicated by this replat, the final plat tracing shall make proper reference to K.S.A. 12-512(b) in the engineer's text.
- H. Perimeter closure computations shall be submitted with the final plat tracing. Section 5-101(C).
- I. Recording of the plat within 30 days after approval by the Board of City Commissioners.
- J. The representative from the City Engineer's office should be prepared to comment on the status of the applicant's drainage plan.

Re: Final Plat S/D 86-91 - KILLARNEY FIRST ADDITION

Dear Gentlemen:

At the regular meeting of the Metropolitan Area Planning Commission on November 13, 1986, the above-captioned plat was considered. The action of the Planning Commission was to recommend that the plat be approved as recommended by the Subdivision Committee subject to the conditions stated in our letter of November 6, 1986.

In addition to complying with those conditions, it is necessary that you meet the following requirements before this plat can be forwarded to the Board of City Commissioners for consideration:

1. Submission of the fully completed and signed tracing of the subdivision to the Metropolitan Area Planning Department.
2. Submission of a title report by an abstract or title insurance company or an attorney's opinion that fee title is vested in the platlor.
3. Certification that all real estate taxes for the first half of 1986 and all prior years have been paid.

Please call if you have any questions.

Sincerely,

Forrest L. Nagley
Senior Planner
