

2. The suitability of the subject property for the uses to which it has been restricted: The site could be developed as zoned without the Conditional Use.
3. Extent to which removal of the restrictions will detrimentally affect nearby property: The installation should not detrimentally impact nearby properties.
4. Relative gain to the public health, safety and welfare as compared to the loss in value or the hardship imposed upon the applicant: Denial would force the applicant to find another location. The water booster pump station is necessary to provide infrastructure support to the local community.
5. Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies: The Comprehensive Plan contains location criterion recommending that utility facilities with significant noise, odor and other nuisance elements should be located away from residential areas. This site is reasonably remote from residences.
6. Impact of the proposed development on community facilities: None identified.

STAFF REPORT

MAPC December 8, 2005

CASE NUMBER: CON 2005-00050

APPLICANT/AGENT: City of Wichita c/o John Philbrick (applicant); Benchmark Land Surveying c/o Chad Abbott (agent)

REQUEST: Conditional Use to permit a Utility, Major

CURRENT ZONING: GC General Commercial

SITE SIZE: 1.13 acres

LOCATION: South of Harry and Gouverneur, on the dead end of Osie

PROPOSED USE: Water booster pump station

BACKGROUND: The applicant is requesting a Conditional Use to permit a “utility, major” which would allow the installation of a pump station on 1.13 acres, generally located south of Harry and Gouverneur, on the dead end of Osie. The application area is zoned GC, and is surrounded to the south, east, and west by other city owned land also zoned GC and currently vacant. North of the site are GC zoned properties used for self-storage, warehousing, and various retail/commercial uses. The pump station site will include a 107 by 44-foot building (see the attached site plan).

The *Wichita-Sedgwick County Unified Zoning Code* defines a “utility, major” as a service similar to services and facilities of agencies that provide the general public with electricity, gas, heat, steam, communication, rail transportation, water, sewage collection or other similar services that exceed 150 cubic feet in size and six feet in height that might generate discernable noise, odor or vibration in a residential district. The code permits a major utility as a Conditional Use in the GC district.

CASE HISTORY: None

ADJACENT ZONING AND LAND USE:

NORTH:	GC	Self-storage, warehousing, retail
SOUTH:	GC	Vacant, I-35
EAST:	GC	Vacant
WEST:	GC	Vacant

PUBLIC SERVICES: The site is located at the cul-de-sac termination of Osie, a currently unpaved portion with an 80-foot right-of-way. All normal services are available at the site.

CONFORMANCE TO PLANS/POLICIES: The Wichita Functional Land Use Guide identifies this site as appropriate for Major Institutional development. The Comprehensive Plan contains location criterion recommending that utility facilities with significant noise, odor and other nuisance elements should be located away from residential areas.

RECOMMENDATION: Based upon information available prior to the public hearings, planning staff recommends that the request be APPROVED, subject to development of the site in substantial compliance with the approved site plan.

This recommendation is based on the following findings:

1. The zoning, uses and character of the neighborhood: GC zoning surrounds the application area. Nearby uses include self-storage, warehousing, and retail/commercial uses.
