Background: On August 9, 2000, the Board of County Commissioners approved a zone change from "RR" Rural Residential to "LI" Limited Industrial for 159 acres located at the southeast corner of 29th Street North and Greenwich Rd. The zone change was approved subject to platting the property within one year. Per adopted policy, the platting deadline was extended by six months on August 22, 2001 by the Chair of the Board of County Commissioners and by additional one-year periods on January 2, 2002, January 22, 2003, January 21, 2004, January 5, 2005, and February 8, 2006 by the Board of County Commissioners. The current platting deadline is February 1, 2007. The applicant indicates (see attached letter) that market issues and drainage planning have delayed platting. Therefore, the applicant requests a two-year platting extension.

Analysis: Staff recommends granting an additional two-year platting extension, extending the platting deadline to February 1, 2009.

Alternatives: The Board of County Commissioners may deny the request for a platting extension. Such a decision would declare the zone change null and void and would require reapplication and rehearing if the property owner still desired a zone change.

Financial Considerations: Not Applicable.

Policy Considerations: Wichita-Sedgwick County Metropolitan Area Planning Commission Policy Statement No. 5 indicates that the Board of County Commissioners may grant a platting extension in this instance.

Legal Considerations:   Approved as to form and signed by County Counselor's Office
No legal documents are required to enact the granting of platting extension. The granting of a platting extension is indicated via letter to the applicant noting the date of the action by the Board of County Commissioners.
