Re: BZA2008-04: Zoning Adjustment to reduce the parking requirement by 10% in "SF-5" Single-family Residential zoning for a neighborhood swimming pool, generally located northwest of 119th Street West & 29th Street North & southeast of Fontana Street & Covington Street.

Legal Description: Reserve B, Fontana Addition to Wichita, Sedgwick County, Kansas.

Dear Applicants,

We have reviewed your request for a Zoning Adjustment to reduce the parking requirement on the above-referenced property. From reviewing your application we understand that you propose to develop a neighborhood pool and playground on the property. Your site plan indicates 16 parking spaces, two less than the number of parking spaces required by the Unified Zoning Code. Therefore, you have requested a Zoning Adjustment to reduce the parking requirement to 16 spaces.

Sec. V-I.2.i. of the Unified Zoning Code allows an adjustment to reduce the parking requirement by 10% when the conditions required by Sec. V-I.6. of the Code are met. We find that the reduction of the parking requirement as proposed meets the four conditions required by Sec. V-I.6. of the Code as set out below:

- 1) Impact on safety and convenience of vehicular and pedestrian circulation: The proposed reduction should not have a detrimental impact on the safety and convenience of vehicular and pedestrian circulation in the vicinity of the application area. Sufficient parking should be available for the anticipated need.

- 2) Impact on existing uses in surrounding areas: The proposed reduction should not impact surrounding residences. The location of the pool within the neighborhood should encourage pedestrian access, minimizing the parking need.
- 3) Compatibility with existing or permitted uses on abutting sites: A reduction of two parking spaces should not compromise existing or permitted uses on abutting sites since these uses are residential and the use of the pool is restricted to residences and their guests of the subdivision.
- 4) Effect on public health, safety or welfare: There will not be any encroachment into public right of way or utility easements; therefore there should be no impact on the public's safety, health or welfare.

Our signatures below indicate that an administrative adjustment to reduce parking by two spaces, from 18 to 16, is hereby granted for the aforementioned property subject to the following conditions:

- 1) The parking area shall be developed in general conformance with the approved site plan and the approved landscape plan.
- 2) The parking area shall be paved and marked.
- 3) If the Zoning Administrator finds that there is a violation of any of the conditions of the Zoning Adjustment, the Zoning Administrator, in addition to enforcing the other remedies set forth in the Unified Zoning Code, may, with the concurrence of the Planning Director, declare the Zoning Adjustment null and void..

The "Development Application" sign should now be removed from the property.
