

MEMO

TO: City of Wichita, Engineering Dept. PROJECT NO. 36-83713-1120
455 N. Main
Wichita, KS 67202
ATTN: Chris Breitenstein, P.E. DATE: April 4, 1984
FROM: Louise Olivarez
REFERENCE: Drainage Plan

Transmitted herewith are two (2) prints of the Drainage Plan for the proposed Briarwood 4th Addition, along with supporting calculations.

The plan was submitted last Friday, March 30, 1984, for hearing by the Subdivision Committee on April 12, 1984.

If you have any questions or need any additional information, please advise.

Briarwood Phase II (4th Add.)

PEC File 36-83713-1120

SYSTEM 100

- Due to minimal difference in 2 yr & 100 yr pipe sizes, use 100 yr storm.
- Street flow allowed to be 5' curb depth for 2 yr storm. See attached graph.
 $E = \text{reciprocal of cross slope} = \frac{1}{5/16} = .32$
 $n = .0016$
 $Q_{max} \text{ street} = 13 \text{ cfs}$
Curb depth allowed = 0.55'
street slope = 0.32%
- Street flow allowed to be .03' above curb depth for 100 year storm (depth allowed = 0.55')
Approx. $Q_{max} \text{ street} = 40 \text{ cfs}$ (see attached graph)
Actual flows are 2.9 & 8.4 cfs
Therefore, street flow for 100 yr storm OK
- Inlet size:
Sump condition at both Nodes 101 & 102
 $H = 10"$ (City inlet) = depth of water
 $h = 6"$ inlet opening
 $H/h = 10/6 = 1.67$
Resulting $Q/L = 2.0 \text{ cfs per foot of inlet}$ (See graph)
at Node 102 $Q = 2.9$ $L \text{ required} = \frac{2.9}{2.0} = 1.45'$ Use 1'-0" curb inlet
at Node 101 $Q = 5.5$ $L \text{ required} = \frac{5.5}{2.0} = 2.75'$

Briarwood Phase II (4th Addition)

SYSTEM 200

- Design this system for 2-year storm in pipe. Difference ($Q_{100} - Q_2$) overlaid in swales.
- Street flow for 2 yr storm (same criteria as System 100)
 $Q_{max} \text{ street} = 13 \text{ cfs}$
Street flows at all nodes are less than 13 cfs
Therefore all street flows for 2-yr storm OK
- Street flow for 100 yr storm (same criteria as System 100)
 $Q_{max} \text{ street} = 40 \text{ cfs}$
Check each segment: Node 208 to 207 18.0 - 8.2 = 9.8
Node 207 to 206 22.2 - 10.1 = 12.1
Node 206 to 205 4.4 - 2.0 = 2.4
Node 205 to 204 31.6 - 14.3 = 17.3
Node 204 to 203 36.0 - 14.3 = 21.7
Node 203 to 202 49.8 - 22.2 = 27.6
Node 202 to 201 52.4 - 23.3 = 29.1
Node 201 to 200 55.2 - 24.5 = 30.7
All street flows for 100 yr storm = < 40 cfs

Briarwood Phase II (4th Addition)

FOR SWALE DESIGN: USE MANNING'S EQUATION

$$Q = 1.486 AR^{2/3} S^{1/2} \quad n = 0.035 \quad S = 0.4\%$$

- NODE 204 - NODE 203 $Q_{100} = 19.7 \text{ cfs}$
 $19.7 = \frac{1.486}{0.035} AR^{2/3} \quad AR^{2/3} = \frac{19.7 \times 0.035}{1.486} = 0.46324$
 $AR^{2/3} = 0.46324 \quad R^{2/3} = \frac{0.46324}{A} = 7.33$
- NODE 203 - NODE 202 $Q_{100} = 27.6 \text{ cfs}$
 $27.6 = \frac{1.486}{0.035} AR^{2/3} \quad AR^{2/3} = \frac{27.6 \times 0.035}{1.486} = 0.6324$
 $AR^{2/3} = 0.6324 \quad R^{2/3} = \frac{0.6324}{A} = 10.21$
- NODE 201 - NODE 200 $Q_{100} = 30.7 \text{ cfs}$
 $30.7 = \frac{1.486}{0.035} AR^{2/3} \quad AR^{2/3} = \frac{30.7 \times 0.035}{1.486} = 0.7324$
 $AR^{2/3} = 0.7324 \quad R^{2/3} = \frac{0.7324}{A} = 11.42$

SWALE DESIGN (Continued)

- Inlet capacity.
All inlets in sump condition
 $Q_{allowable} = 208 \text{ ft} \times 5' \text{ (C-D-W inlet)} = 10 \text{ cfs}$
All inlet O's for 2-yr storm < 10 cfs

6) Check Pipe sub size out of Node 208.

- Check Inlet size of Node 203 (Drop inlet)
Use Weir Equation $Q = CLH^{3/2}$ where $Q = 6.2 \text{ cfs}$
 $L = \text{unknown}$
 $C = 3$
 $H = 1.0'$
 $6.2 = 3.0 \times L \times 1.0^{3/2}$
 $L = \frac{6.2}{3.0} = 2.06'$
Use C-D-W 2' x 4' Drop Inlet
Use Orifice Equation
 $Q = CA\sqrt{2gh}$ where $Q = 6.2$
 $C = 0.6$
 $A = \text{unknown}$
 $g = 32.2 \text{ ft/sec}^2$
 $h = 1.0'$
 $6.2 = 0.6 \times A \times \sqrt{2 \times 32.2 \times 1.0}$
 $6.2 = 0.6 \times A \times 8.02$
 $A = \frac{6.2}{0.6 \times 8.02} = 1.26'$
Use C-D-W 2' x 4' Drop Inlet

NW Corner, NW 1/4, Section 18,
T27S, R1W, 6th P.M.

BRIARWOOD ESTATES FOURTH ADDITION
(Drainage)

State of Kansas
County of Sedgwick

I, R.W. Linn, a Professional Engineer in aforesaid State and County, do hereby certify that on this _____ day of _____, 1984, I have caused to be surveyed and plotted "BRIARWOOD ESTATES 4TH ADDITION," to Wichita, Sedgwick County, Kansas, into lots, blocks, streets and reserves, the same being a replat of a portion of Briarwood Estates, Wichita, Sedgwick County, Kansas, described as: Commencing at the NW Corner of the NW 1/4 of Section 18, Township 27 South, Range 1 West of the 6th P.M., thence along the west line of said NW 1/4 bearing S 7°21'29" E a distance of 1201.00 feet; thence bearing N 82°38'31" E a distance of 50.00 feet to the point of beginning, said point being on the east curve to the left having a radius of 295.31 feet to the P.C. of a distance of 514.00 feet; thence bearing N 7°21'29" W a distance of 58.00 feet; thence bearing N 82°38'31" E a distance of 189.55 feet; thence bearing N 87°01'01" E a distance of 183.00 feet; thence bearing S 3°58'59" E a distance of 477.53 feet; thence bearing S 35°58'59" E a distance of 250.32 feet; thence bearing S 11°50'30" W a distance of 390.00 feet; thence bearing N 86°46'20" W a distance of 1098.16 feet to a point on the east right-of-way line of 119th Street West; thence along said right-of-way bearing N 7°21'29" W a distance of 528.34 feet to the point of beginning.

R.W. Linn, P.E. No. 3684

Know all men by these presents that we, the undersigned property owners of the land as above set forth in the Engineer's Certificate have caused the land to be surveyed and plotted into lots, blocks, streets and reserves, the same to be known as "BRIARWOOD ESTATES 4TH ADDITION," to Wichita, Sedgwick County, Kansas, as indicated, for the construction and maintenance of public utilities and drainage, are hereby granted. The reserves, as indicated, shall be reserved for drainage, utilities, landscaping, private access, and recreational facilities in accordance with the restrictive covenants established by the Declaration of Landowners Association Agreement, and shall be owned and maintained by the Briarwood Estates Homeowners Association. The streets are hereby dedicated to and for the use of the public. All aquifers, rights of access to and from 119th Street West over and across the west line of Block 1 are hereby granted to the City of Wichita. Minimum Pad Elevation for all lots shall be 1335.00 M.S.L. Inland Investment Co., Inc.

Larry A. Chambers President

State of Kansas
County of Sedgwick

Be it remembered that on this _____ day of _____, 1984, before me, a Notary Public in aforesaid State and County, came Inland Investment Co., Inc., by its President, Larry A. Chambers, to me personally known to be the same person who executed the foregoing instrument of writing and duly acknowledged the execution of same for and on behalf of and as the voluntary act and deed of said company, in testimony whereof I have hereunto set my hand and affixed my Notarial Seal the day and year above written.
