NOTE! The ditch is to be backfilled and flushed with the excavated material where the lines are under future pavements as shown on the plan. Should the excavated material be unsatisfactory for backfill, as determined by the engineer, the ditch shall be sand filled.

NOTE! 8" stubs out of M.H.'s are to be extended to the edge of the excavation. The pipe is to be supported by 2 sack concrete beyond the brick pier. The cost of the 2 sack concrete shall be considered included in the bid price of the M.H.
